Notice of Final Federal Agency Actions on Proposed SR-32 Project in Tennessee

AGENCY: Federal Highway Administration (FHWA), DOT.

ACTION: Notice of limitation on claims for judicial review of actions by FHWA and other Federal agencies.

SUMMARY: This notice announces actions taken by FHWA and other Federal agencies that are final within the meaning of the statute. The actions relate to a proposed highway project, State Route (SR) 32 (US-321) from SR-73 at Cosby to North of Wilton Springs Road in Cocke County, Tennessee. Those actions grant licenses, permits, and approvals for the project. The FHWA's Finding of No Significant Impact (FONSI) provides details on the Selected Alternative for the proposed improvements.

DATES: By this notice, FHWA is advising the public of final agency actions subject to 23 U.S.C. 139(j)(1). A claim seeking judicial review of the Federal agency actions on the highway project will be barred unless the claim is filed on or before March 14, 2024. If the Federal law that authorizes judicial review of a claim provides a time period of less than 150 days for filing such claim, then that shorter time period still applies.

The USACE Nashville District's normal business hours are 7 a.m. to 3:30 p.m. (Central Time).

SUPPLEMENTARY INFORMATION: Notice is hereby given that FHWA and USACE have taken final agency actions by issuing licenses, permits, and approvals for the following highway project in the State of Tennessee: SR-32 (US-321), Project Number 15005-1234-04, PIN 101422.00, Cocke County, Tennessee. The proposed action will improve access to high tourism areas within the region, improve the roadway to meet current design standards, improve traffic operational efficiency, reduce crashes, meet the legislative intent of the Improving Manufacturing, Public Roads, and Opportunities for a Vibrant Economy (IMPROVE) Act, and enhance economic development opportunities. The Selected Alternative (Build Alternative A) will begin on SR-73 just south of Stonebrook Drive and continue north on new location west of Stonebrook Drive for approximately 1.4 miles before crossing existing SR-32. After crossing existing SR-32, the Selected Alternative (Build Alternative A) continues north on new location to just north of SR-339 (Jones Cove Road), where it then follows the existing SR-32 alignment, except where it straightens out several curves, to north of Middle Creek Road where it again travels on new location to align with existing SR-32 at the SR-32/Wilton Springs Road intersection. The Selected Alternative (Build Alternative A) continues through the intersection to connect with the existing 4-lane divided section of SR-32 north of the bridge over Cosby Creek. The Selected Alternative (Build Alternative A) will result in the realignment of the entrance to the Foothills Parkway, which is

under the jurisdiction of the National Park Service (NPS). Coordination with the NPS has been ongoing throughout project development. The NPS concurred with FHWA's proposed Section 4(f) *de minimis* use determination related to impacts associated with the Foothills Parkway on March 3, 2023.

The actions by the Federal agencies, and the laws under which such actions were taken, are described in the Environmental Assessment (EA) for the project, approved on March 16, 2022, in the FHWA FONSI issued on July 13, 2023, and in other documents in the FHWA project records. The EA, FONSI, and other project records are available by contacting the FHWA or TDOT at the addresses provided above. Federal Railroad Administration

[Docket Number FRA-2010-0144]

Petition for Extension of Waiver of Compliance

Under part 211 of title 49 Code of Federal Regulations (CFR), this document provides the public notice that on September 14, 2023, Akron Barberton Cluster Railway (ABCR) petitioned the Federal Railroad Administration (FRA) for an extension of a waiver of compliance from certain provisions of the federal hours of service laws contained at title 49 United States Code (U.S.C.) section 21103. The relevant Docket Number is FRA-2010-0144. Specifically, ABCR requested an extension of the existing relief from the provisions of 49 U.S.C. 21103(a)(4), which in part, provides that a train employee may not be required or allowed to remain or go on duty after that employee has initiated an on-duty period each day for 6 consecutive days, unless that employee has had at least 48 hours off duty at the employee's home terminal. ABCR seeks to continue to allow a train employee to initiate an on-duty period for 6 consecutive days followed by 24 hours off duty. ABCR states that it employs nine train and engine service employees who would use this waiver with set hours, set days off, and no layovers at away from home locations. ABCR further explains that it has support from all employees for the extension of relief.
