B. Provisions for Disposition of Existing Stocks

The Agency intends to prohibit the sale and distribution of existing stocks of the affected propanil products (EPA Registration Nos. 9779-338, 62719-386, 62719-403, 62719-404, 62719-413, and 71085-22) 12 months after publication of this Notice on June 28, 2004.

This is in accordance with the Agency's statement of policy as prescribed in the **Federal Register** of June 26, 1991 (56 FR 29362) (FRL-3846-4).

Exceptions will be made if EPA determines that a product poses a risk concern, or is in noncompliance with reregistration requirements, or is subject to a Data Call-In. In all cases, product-specific disposition dates will be given in the cancellation orders.

Existing stocks are those stocks of registered pesticide products which are currently in the United States and which have been packaged, labeled, and released for shipment prior to the effective date of the cancellation action. Unless the provisions of an earlier order apply, existing stocks already in the hands of dealers or users can be distributed, sold, or used legally until they are exhausted, provided that such further sale and use comply with the EPA-approved label and labeling of the affected product. Exception to these general rules will be made in specific cases when more stringent restrictions on sale, distribution, or use of the products or their ingredients have already been imposed, as in a Special Review action, or where the Agency has

identified significant potential risk concerns associated with a particular chemical.
