## NUCLEAR REGULATORY COMMISSION

[NRC–2010–0148]

### Draft Regulatory Guide: Issuance, Availability

**AGENCY:** Nuclear Regulatory Commission.

**ACTION:** Notice of Issuance and Availability of Draft Regulatory Guide, DG–8036, “Personnel Monitoring Device—Direct-Reading Pocket Dosimeters.”

#### FOR FURTHER INFORMATION CONTACT:

Harriet Karagiannis, U.S. Nuclear Regulatory Commission, Washington, DC 20555–0001, *telephone:* (301) 251–7477 or e-mail

*Harriet.Karagiannis@nrc.gov.*

#### SUPPLEMENTARY INFORMATION:

##### I. Introduction

The U.S. Nuclear Regulatory Commission (NRC) is issuing for public comment a draft guide in the agency’s “Regulatory Guide” series. This series was developed to describe and make available to the public such information as methods that are acceptable to the NRC staff for implementing specific parts of the NRC’s regulations, techniques that the staff uses in evaluating specific problems or postulated accidents, and data that the staff needs in its review of applications for permits and licenses.

The draft regulatory guide (DG), entitled, “Personnel Monitoring

Device—Direct-Reading Pocket Dosimeters,” is temporarily identified by its task number, DG–8036, which should be mentioned in all related correspondence. DG–8036 is proposed Revision 1 of Regulatory Guide 8.4, dated February 1973.

This guide provides guidance acceptable to NRC staff on the use of direct-reading pocket dosimeters; it includes specific performance standards for personnel monitoring but not for area monitoring. Although the previous version of this guide included guidance on indirect-reading pocket dosimeters, this guide excludes such dosimeters because they are essentially no longer used.

## II. Further Information

The NRC staff is soliciting comments on DG–8036. Comments may be accompanied by relevant information or supporting data and should mention DG–8036 in the subject line. Comments submitted in writing or in electronic form will be made available to the public in their entirety through the NRC’s Agencywide Documents Access and Management System (ADAMS).

Comments would be most helpful if received by June 8, 2010. Comments received after that date will be considered if it is practical to do so, but the NRC is able to ensure consideration only for comments received on or before this date. Although a time limit is given, comments and suggestions in connection with items for inclusion in guides currently being developed or improvements in all published guides are encouraged at any time.

**ADDRESSES:** You may submit comments by any one of the following methods. Please include Docket ID NRC–2010–148 in the subject line of your comments. Comments submitted in writing or in electronic form will be posted on the NRC Web site and on the Federal rulemaking Web site Regulations.gov. Because your comments will not be edited to remove any identifying or contact information, the NRC cautions you against including any information in your submission that you do not want to be publicly disclosed.

The NRC requests that any party soliciting or aggregating comments received from other persons for submission to the NRC inform those persons that the NRC will not edit their comments to remove any identifying or contact information, and therefore, they should not include any information in their comments that they do not want publicly disclosed.
