

to its authorized Money Pool limit. The Money Pool represents an economic alternative for HWP's short-term funding needs. Applicants request an increase in HWP's Money Pool limit from \$10 million to \$35 million.

NAESC, which seeks authority to participate in the NU Money Pool, formerly operated the Seabrook Nuclear Station, which was sold in 2002. NAESC currently retains cash against certain future obligations, and Applicants state that NU's cash management system will be enhanced by the addition of NAESC to the NU Money Pool on the terms and conditions set forth in the 2004 Order.

NU states that at all times during the Authorization Period it will maintain common equity (as reflected in the most recent Form 10-K or Form 10-Q filed with the Commission) of at least 30% of its consolidated capitalization (net of securitization debt). The term "consolidated capitalization" is defined to include, where applicable, common stock equity (comprised of common stock, additional paid in capital, retained earnings, accumulated other comprehensive income or loss, and/or treasury stock), minority interest, preferred stock, preferred securities, equity linked securities, long-term debt, short-term debt and current maturities (net of securitization debt).

NU states that, as of June 30, 2005, NU's consolidated capitalization (net of securitization debt) consisted of 38.6% common equity, 2.1% preferred stock, 59.3% long-term and short-term debt. When securitization debt (Rate Reduction Bonds) is included, NU's consolidated capitalization as of June 30, 2005, was 30.5% common equity, 1.7% preferred stock and 46.8% debt, 21.0% Rate Reduction Bonds.

The proceeds from the issuance of short-term debt as requested in this Amendment will be used for (i) general corporate purposes, including investments by and capital expenditures of NU and its subsidiaries, including, without limitation, the funding of future investments in exempt wholesale generators ("EWGs"), foreign utility companies ("FUCOs") (each to the extent permitted under the Act or Commission order), energy-related companies ("Rule 58 Subsidiaries") to the extent permitted under the Act or Commission order, and exempt telecommunications companies ("ETCs"), (ii) the repayment, redemption, refunding or purchase by NU or any subsidiary of any of its own securities from non-affiliates under rule 42, and (iii) financing working capital requirements of NU and its subsidiaries.

For the Commission, by the Division of Investment Management, pursuant to delegated authority.

Jonathan G. Katz,
Secretary.

The fee does not apply to mnemonics for which fewer than 100,000 orders were cancelled through Amex systems and does not apply to the first 100,000 cancellations submitted for a mnemonic. In addition, cancellations resulting from "Immediate or Cancel" or "Fill or Kill" orders will not be counted towards the number of cancellations used to determine whether the fee should be applied to a mnemonic and will not be counted when determining the amount of the cancellation fee charged to an executing clearing member. II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, Amex included statements concerning the purpose of, and basis for, the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. Amex has prepared summaries, set forth in Sections A, B,

and C below, of the most significant aspects of such statements.

A. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

1. Purpose

The Exchange proposes to establish a fee on the cancellation of orders in equities and ETFs. The Amex believes that this fee is necessary given the often disproportionate number of order cancellations received relative to order executions and the increased costs associated with the practice of immediately following an order routed through exchange systems with a cancel request for that order. These order cancellations utilize system capacity and may require manual processing by specialist unit personnel, which may unnecessarily distract specialist staff from other responsibilities. Cancellations often come in large numbers creating backlogs in Amex systems, increasing Exchange costs, adversely impacting public customers, their clearing firms and specialists and resulting in less than timely executions of customer orders. The large volume of order cancellations requires an increase in Exchange spending on systems and related hardware used to process increased message traffic.

The cancellation fee for equities and ETFs is similar in structure to the options order cancellation fee adopted by the Exchange in 2001.⁷ The fee will apply to the executing clearing member when the number of cancellations of equity and ETF orders exceeds certain parameters. The cancellation fee for equities and ETFs will be calculated and applied on a "mnemonic-by-mnemonic" basis for each clearing member. Mnemonics are reference numbers or codes used by executing clearing members to designate: (1) Either the branch, trading desk or account from which orders, cancellations or other messages are sent to Amex; or (2) the types of products for which orders, cancellations or other types of messages are sent to Amex. For example, some clearing firms use one mnemonic to send equity orders and cancellations and another mnemonic to send ETF orders and cancellations. Each executing clearing member has at least one mnemonic, while many executing clearing members have two or more. Calculating and applying the cancellation fee for equities and ETFs on a mnemonic-by-mnemonic basis

provides a more precise way of billing executing clearing members.

Specifically, an executing clearing member will be charged \$0.25 for every equities and ETF order sent for a mnemonic and cancelled through Amex systems in a given month when the total number of equities and ETF orders executed for that mnemonic is less than or equal to 10% of the equities and ETF orders cancelled through Amex systems for that mnemonic in that same month. The fee does not apply to mnemonics for which fewer than 100,000 orders were cancelled through Amex systems and does not apply to the first 100,000 cancellations submitted for a mnemonic. For example, in August 2005, an executing clearing member submitted, for one mnemonic, 313,511 orders in Amex equities. For that same mnemonic, the executing clearing member cancelled 286,556 of those orders and executed 26,955. Pursuant to the proposed cancellation fee, the executing clearing member would have been subject to a fee of \$46,639 ($286,556 \times 100,000 \times \0.25) for that mnemonic. Cancellations resulting from "Immediate or Cancel" or "Fill or Kill" orders⁸ will not be counted towards the number of cancellations, since those order types, which combine an order with its cancellation in one message, do not add to the message traffic sent through Exchange systems. Cancellations resulting from "Immediate or Cancel" and "Fill or Kill" orders will not be counted when determining the amount of the cancellation fee charged to an executing clearing member. Executions of "Immediate or Cancel" and "Fill or Kill" orders will, however, be counted towards the number of executions.⁹

Amex plans to begin billing the cancellation fee in November 2005 based on order cancellations and executions occurring in October 2005.¹⁰

2. Statutory Basis

Amex believes that the proposed rule change, as amended, is consistent with Section 6(b) of the Act,¹¹ in general, and furthers the objectives of Section 6(b)(4)

⁸ A "Fill or Kill" order is a market or limited price order which is to be executed in its entirety as soon as it is represented in the trading crowd, and such order, if not so executed, is to be treated as cancelled. An "Immediate or Cancel" order is a market or limited price order which is to be executed in whole or in part as soon as such order is represented in the trading crowd, and the portion not so executed, is to be treated as cancelled. See Amex Rules 131(i) and (k).

⁹ See Amendment No. 1, *supra* note 3.

¹¹ 15 U.S.C. 78f(b).

⁷ See Securities Exchange Act Release No. 45110 (November 27, 2001), 66 FR 63080 (December 4, 2001).

of the Act,¹² in particular, in that it is designed to provide for the equitable allocation of reasonable dues, fees, and other charges among its members and issuers and other persons using its facilities. In particular, Amex believes that the proposed cancellation fee will allow the Exchange to more equitably recover systems capacity costs from its members.

B. Self-Regulatory Organization's Statement on Burden on Competition

Amex does not believe that the proposed rule change, as amended, will impose any burden on competition.

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants or Others

No written comments were solicited or received with respect to the proposed rule change.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

The foregoing rule change has become effective pursuant to Section 19(b)(3)(A) of the Act¹³ and subparagraph (f)(2) of Rule 19b-4 thereunder¹⁴ since it establishes or changes a due, fee or other charge imposed by the Exchange.

At any time within 60 days of the filing of the proposed rule change, the Commission may summarily abrogate such rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the purposes of the Act.¹⁵
