

and any form of encryption. Electronic submissions will be accepted in Wordperfect 6.1/8.0 or ASCII file format. All comments in electronic form must be identified by the docket control number OPP-36190B. Electronic comments may also be filed online at many Federal Depository Libraries.

D. How Should I Handle CBI that I Want to Submit to the Agency?

Do not submit any information electronically that you consider to be CBI. You may claim information that you submit to EPA in response to this document as CBI by marking any part or all of that information as CBI. Information so marked will not be disclosed except in accordance with procedures set forth in 40 CFR part 2. In addition to one complete version of the comment that includes any information claimed as CBI, a copy of the comment that does not contain the information claimed as CBI must be submitted for inclusion in the public version of the official record. Information not marked confidential will be included in the public version of the official record without prior notice. If you have any questions about CBI or the procedures for claiming CBI, please consult the person listed under **FOR FURTHER INFORMATION CONTACT**.

E. What Should I Consider as I Prepare My Comments for EPA?

You may find the following suggestions helpful for preparing your comments:

1. Explain your views as clearly as possible.
2. Describe any assumptions that you used.
3. Provide copies of any technical information and/or data you used that support your views.
4. If you estimate potential burden or costs, explain how you arrived at the estimate that you provide.
5. Provide specific examples to illustrate your concerns.
6. Offer alternative ways to improve the proposed rule or collection activity.
7. Make sure to submit your comments by the deadline in this proposed rule extension.
8. To ensure proper receipt by EPA, be sure to identify the docket control number assigned to this action in the subject line on the first page of your response. You may also provide the name, date, and **Federal Register** citation.

II. Background

A. What Action is EPA Taking?

EPA is providing supplemental information on S-metolachlor and is extending the comment period for 30 days.

B. What Additional Data is EPA Making Available for Comment?

1. Novartis Study No. 381-97, in response to EPA Review of CGA-77102 Ecological Toxicology Studies, June 11, 1997.

2. Novartis Study No. 314-97, in response to EPA Review of CGA-77102/Metolachlor Environmental Fate Studies, June 6, 1997.

C. Why is EPA Seeking Comment on This Additional Data?

Three commenters requested an extension of the comment period. Of these, one commenter to the February 23, 2000, Notice of Availability and Request for Comment argued that additional information on S-metolachlor it had provided to EPA also warranted public comment. EPA is noticing that here.

III. Do Any Regulatory Assessment Requirements Apply to this Action?

No. This action is not a rule, it merely announces the availability of and requests comments on supplemental information related to a previous Notice (65 FR 8925, February 23, 2000) and extends the date by which public comments must be submitted to EPA. This information is related to, among other things, a proposed rule that previously published in the **Federal Register** of June 26, 1996 (61 FR 33260). For information about the applicability of the regulatory assessment requirements to that proposed rule, which published in the **Federal Register**, please refer to the discussion in Unit VIII of that document.

List of Subjects

40 CFR Part 152

Environmental protection, Administrative practice and procedure, Pesticides and pest, Reporting and recordkeeping requirements.

40 CFR Part 156

Environmental protection, Labeling, Occupational safety and health, Pesticides and pest, Reporting and recordkeeping requirements.

Dated: March 20, 2000.

Susan H. Wayland,

Acting Assistant Administrator for Prevention, Pesticides, and Toxic Substances.
