

Instructions: You must include the agency name (Federal Transit Administration) and the docket number (FTA-2009-0005). You should submit two copies of your comments if you submit them by mail. If you wish to receive confirmation that FTA received your comments, you must include a self-addressed stamped postcard. Note that all comments received will be posted without change to the federal government Web site located at <http://regulations.gov>. This means that if your comment includes any personal identifying information, such information will be made available to users of Web site.

FOR FURTHER INFORMATION CONTACT: Ron Fisher, Office of Planning and Environment, telephone (202) 366-4033. FTA is located at 1200 New Jersey Ave., SE., East Building, Washington, DC 20590. Office hours are from 9 a.m. to 5:30 p.m., Monday through Friday, except Federal holidays.

SUPPLEMENTARY INFORMATION: Although the discussion paper is reasonably detailed, FTA invites comments that may address broader areas of the evaluation of economic development as well as comments that address the level of detail described. Comments made on the discussion paper will be considered by FTA in its development of proposed policy guidance some time in the future on the approach for evaluation of economic development. That proposed policy guidance will also be published for notice and comment prior to being finalized.

FTA is departing from its usual approach of simply issuing proposed guidance and then final because no formal FTA approach to evaluation of this criterion exists, there is a broad diversity of views on the definition of economic development, and the state-of-the-practice for its evaluation is far behind that for more traditional measures of mobility improvements. FTA requests comments on the evaluation of economic development and specifically on the discussion paper, which is available in DOT's electronic docket at <http://regulations.gov> and on FTA's Web site at http://www.fta.dot.gov/planning/newstarts/planning_environment_5615.html.
