Annual Adjustment of Monetary Threshold for Reporting Rail Equipment Accidents/Incidents—Calendar Year 2002

AGENCY: Federal Railroad Administration (FRA), Department of Transportation (DOT).

ACTION: Final rule.

SUMMARY: This final rule establishes at \$6,700 the monetary threshold for reporting railroad accidents/incidents involving railroad property damage that occur during calendar year 2002. The monetary threshold of \$6,700 for calendar year 2002 represents an \$100 increase over last year's monetary threshold of \$6,600. This action is needed to ensure and maintain comparability between different years of data by having the threshold keep pace with any increases or decreases in equipment and labor costs so that each year accidents involving the same minimum amount of railroad property damage are included in the reportable accident counts.

EFFECTIVE DATE: January 1, 2002.

FOR FURTHER INFORMATION CONTACT:

Robert L. Finkelstein, Staff Director, Office of Safety Analysis, RRS-22, Mail Stop 17, Office of Safety Assurance and Compliance, FRA, 1120 Vermont Ave., NW., Washington, DC 20590 (telephone 202-493-6280); or Nancy L. Friedman, Trial Attorney, Office of Chief Counsel, RCC-12, Mail Stop 10, FRA, 1120 Vermont Ave., NW., Washington, DC 20590 (telephone 202-493-6034).

SUPPLEMENTARY INFORMATION:

Background

Each rail equipment accident/incident must be reported to FRA using the Rail Equipment Accident/Incident Report (Form FRA F 6180.54). 49 CFR 225.19(b), (c). As revised in 1997, paragraphs (c) and (e) of 49 CFR 225.19, provide that the dollar figure that constitutes the reporting threshold for rail equipment accidents/incidents will be adjusted, if necessary, every year in accordance with the procedures outlined in appendix B to part 225, to reflect any cost increases or decreases. 61 FR 30942, 30969 (June 18, 1996); 61 FR 60632, 60634 (Nov. 29, 1996); 61 FR 67477, 67490 (Dec. 23, 1996).

New Reporting Threshold

Approximately one year has passed since the rail equipment accident/incident reporting threshold was last reviewed, and approximately four years since it was revised. 64 FR 69193 (Dec. 10, 1999); 63 FR 71790 (Dec. 30, 1998); 62 FR 63675 (Dec. 2, 1997). Consequently, FRA has recalculated the threshold, as required by § 225.19(c), based on increased costs for labor and increased costs for equipment. FRA has determined that the current reporting threshold of \$6,600, which applies to rail equipment accidents/incidents that occur during calendar year 2001, should increase by \$100 to \$6,700 for the same rail equipment accidents/incidents that occur during calendar year 2002, effective January 1, 2002.

Accordingly, §§ 225.5 and 225.19 and appendix B have been amended to state the reporting threshold for calendar year 2002 and the most recent cost figures and the calculations made to determine that threshold.

Notice and Comment Procedures

In this rule, FRA has recalculated the monetary reporting threshold based on the formula adopted, after notice and comment, in the final rule published June 18, 1996, 61 FR 30959, 30969, and discussed in detail in the final rule published November 29, 1996, 61 FR 30632. FRA has found that both the current cost data inserted into this pre-existing formula and the original cost
