SUPPLEMENTARY INFORMATION:

Agenda

Monday, December 6, 2021

The Charter Halibut Management Committee will meet to discuss and recommend charter halibut management measures in International Pacific Halibut Commission (IPHC) Areas 2C and 3A for 2022. The Committee will first review the ADF&G analysis for projected charter removals for 2022 under different management scenarios to determine the measures that may be required to keep the charter halibut sector under its allocation. Since the allocations are set after the IPHC first determines the area apportionments for halibut, the Committee will indicate a range of preferred management measures contingent on where the charter halibut catch limit is set. The Committee will also discuss upcoming meetings and any other business. The agenda is subject to change, and the latest version will be posted at: <https://meetings.npfmc.org/Meeting/Details/2561> prior to the meeting, along with meeting materials.
