Background

The FHWA, in cooperation with the Wisconsin Department of Transportation, will prepare a Draft Environmental Impact Statement (EIS) on a proposal to improve STH 164 as an ultimate four lane roadway between IH 94 in Waukesha County and the vicinity of STH 175 in Washington County, a distance of about 32 kilometers (20 miles).

The proposal is being considered to address existing and future transportation demand on STH 164, and to preserve land for future transportation improvements. Planning, environmental and engineering studies are underway to develop transportation alternatives. The EIS will assess the environmental impacts of alternatives including: (1) No build, (2) reconstructing the existing 2-land highway to a 4-land facility, and (3) possible alignment deviation from the present alignment at some locations to minimize environmental impacts.

Information describing the proposed action and soliciting comments will be sent to appropriate Federal, State and local agencies and to private organizations and citizens who have previously expressed, or are known to have interest in this proposal. A project advisory committee comprised of Federal and State agencies, local officials, environmental, and other community interests is being established to provide input during development and refinement of alternatives and corridor preservation activities. A series of public meetings will be held to solicit comments from

citizens and interest groups. In addition, a public hearing will be held. Public notice will be given of the time and place of the meetings and hearing. The draft EIS will be available for public and agency review and comment prior to the public hearing. Agencies having an interest in or jurisdiction regarding the proposed action will be contacted through interagency coordination meetings and mailings.

To ensure that the full range of issues related to this proposed action are addressed, and all substantive issues are identified, comments and suggestions are invited from all interested parties. Comments or questions concerning this proposed action and the EIS should be directed to FHWA or the Wisconsin Department of Transportation at the addresses provided in the caption **FOR FURTHER INFORMATION CONTACT**.
