### 3. *Type of Information Collection*

*Request*: Revision of a currently approved collection; *Title of Information Collection*: Evaluation of Stakeholder Training and Program Support; *Use*: The Centers for Medicare and Medicaid Services (CMS) provides training and technical assistance primarily through weekly, bi-weekly, monthly, or quarterly webinars, conferences, and Computer Based Trainings (CBTs). In addition, CMS provides one-time web-based training and support sessions as needed. Evaluation instruments are electronically sent to participants immediately after each session. Current data collections include online and onsite training session evaluations.

CMS uses information from the data collection activities to determine the extent to which the goals of each training and support session were achieved and to help CMS make improvements for future training and support sessions. The collected data helps CMS address its Government Performance and Results Act (GPRA) requirements, as well as CMS and HHS goals for support for, and open dialogue with, stakeholders.

The Affordable Care Act (ACA) was enacted to assist millions of Americans in obtaining affordable health care services and to allow more employers to offer insurance coverage to their employees in a cost-effective manner. Since the implementation of ACA in 2014, individuals and small businesses have been able to purchase private health insurance through competitive marketplaces called the “Health Insurance Marketplace” (Marketplace). CMS issued regulations for the establishment and practices of Marketplaces in States. The cooperation and coordination of States, health insurance issuers, the Federal Government and other key stakeholders is essential to the continued success of the Marketplace.

The Consolidated Appropriations Act (CAA) of 2021 became law on December 27, 2020. It is a \$1.4 trillion omnibus spending agreement that encompasses many different provisions. Two (2) acts within the law apply to the Centers for Medicare and Medicaid Services (CMS) Center for Consumer Information and

Insurance Oversight (CCIIO): Title I, “No Surprises Act” and Title II, “Transparency” (NST). Beginning in 2022, new protections through the No Surprises Act are in place to shield millions of consumers from surprise medical bills.

CMS is strongly committed to providing training, outreach, and technical assistance to stakeholders participating in the Marketplace and/or programs mandated by the ACA or NST. In addition, CMS recognizes that the success of Marketplaces and associated programs relies on the cooperation and coordination of States, issuers, Assistors, self-insured health plans, third-party administrators (TPA) of self-insured health plans, agents and brokers, Providers/Facilities, and other stakeholders. Therefore, CMS expects to design and conduct various consumer satisfaction and feedback surveys, usability tests, and focus groups for these respondents to complete. *Form Number*: CMS-10598 (OMB control number: 0938-1331); *Frequency*: Annually; *Affected Public*: Individuals and Households, Private Sector, State, Local, and Tribal Governments, Federal Government, Business or other for-profit, and not-for-profit institutions; *Number of Respondents*: 9,588; *Number of Responses*: 9,588 *Total Annual Hours*: 2,397 hours. **SUPPLEMENTARY INFORMATION**: The Privacy Act of 1974 (5 U.S.C. 552a) provides certain protections for individuals applying for and receiving federal benefits. Accordingly, the law governs federal agency computer matching programs when records in a system of records containing information about individuals, that is retrieved by name or other personal identifier, are matched with other federal, state, or local government agency records. The Privacy Act requires agencies involved in a matching program to:

1. Obtain approval of a Computer Matching Agreement, prepared in accordance with the Privacy Act, by the

Data Integrity Board of any federal agency participating in a matching program.

2. Enter into a written Computer Matching Agreement.

3. Provide a report of the matching program to Congress and the Office of Management and Budget (OMB), and make it available to the public, as required by 5 U.S.C. 552a(o), (u)(3)(A), and (u)(4).

4. Publish a notice of the matching program in the **Federal Register** as required by 5 U.S.C. 552a(e)(12) after OMB and Congress complete their review of the report, as provided by OMB Circular A-108.

5. Notify the individuals whose information will be used in the matching program that the information they provide is subject to verification through matching, as required by 5 U.S.C. 552a(o)(1)(D).

6. Verify match findings before suspending, terminating, reducing, or making a final denial of an individual's benefits or payments or taking other adverse action against the individual, as required by 5 U.S.C. 552a(p).

This matching program complies with these requirements.

**Linda Boyer,**

*Deputy Commissioner, OCSS.*

**PARTICIPATING AGENCIES:**

The agencies participating in the matching program are OCSS (source agency) and state agencies administering the Unemployment Compensation (UC) benefits program (non-federal agencies).

**AUTHORITY FOR CONDUCTING THE MATCHING PROGRAM:**

The authority for conducting the matching program is contained in section 453(j)(8) of the Social Security Act (42 U.S.C. 653(j)(8)).

**PURPOSE(S):**

The purpose of the matching program is to compare name and Social Security number (SSN) combinations of UC applicant and recipient records from each SWA to new hire and quarterly wage information maintained in the OCSS NDNH system of records. Any match results from the comparison are returned to help the SWAs with establishing or verifying UC applicants' and recipients' eligibility for assistance, reducing payment errors, and maintaining program integrity, including determining whether duplicate participation exists or if an applicant or recipient resides in another state. The SWAs may also use the NDNH match information for secondary purposes, such as updating UC

recipients' reported participation in work activities, updating recipients' and their employers' contact information, administering the SWAs' tax compliance function, and complying with U.S. Department of Labor (DOL) reporting requirements.

**CATEGORIES OF INDIVIDUALS:**

The categories of individuals involved in the matching program are UC applicants and recipients.

**CATEGORIES OF RECORDS:**

The categories of records involved in the SWA-NDNH matching program, which include personal identifiers, are new hire and quarterly wage. For successful comparison, the SWA input files sent to OCSS must be programmed according to SWA-NDNH Record Specifications and must include the individual applicant or recipient's name and SSN. The SWA may use alphanumeric characters in the Passback Data field of the input file to identify the specific authorized purpose for which the record is being submitted for NDNH matching. They may also use the same State Data Indicator field to indicate whether or not to receive NDNH data that was provided by the state. OCSS will compare the name and SSNs in the SWA input file to the name and SSNs in the NDNH and will send the state agency an output file with any available new hire and quarterly wage information from the NDNH that matched the name and SSNs in the SWA input file records. The NDNH data elements OCSS will return to the state agency are:

*a. New Hire File*

- New hire processed date
- Employee name and address
- Employee date and state of hire
- Federal and state employer

identification numbers

- Department of Defense code
