mail: src@nrc.gov.

SUPPLEMENTARY INFORMATION:**I. Introduction**

The U.S. Nuclear Regulatory
Commission (NRC) is considering the
issuance of a license amendment to
Gibraltar Laboratories, Inc., for Materials
License No. 29-30516-01, to authorize
release of its facility in Fairfield, New
Jersey for unrestricted use and terminate
the license. NRC has prepared an
Environmental Assessment (EA) in
support of this proposed action in
accordance with the requirements of 10
CFR part 51. Based on the EA, the NRC
has concluded that a Finding of No
Significant Impact (FONSI) is
appropriate. The amendment will be
issued following the publication of this
Notice.

II. EA Summary

The purpose of the proposed action is
to authorize the release of the licensee's
Fairfield, New Jersey facility for
unrestricted use and terminate the
license. Gibraltar Laboratories, Inc., was
authorized by NRC from 1999 to use
radioactive materials for research and
development purposes at the site. On
August 27, 2003, Gibraltar Laboratories,
Inc., requested that NRC release the
facility for unrestricted use. This
licensing action was voided because
insufficient information was provided
by Gibraltar Laboratories, Inc., to allow
for the release of the facility for
unrestricted use. On October 11, 2005,
Gibraltar Laboratories, Inc., provided
the additional information requested on
August 27, 2003. Gibraltar Laboratories,
Inc., has conducted surveys of the
facility and provided information to the
NRC to demonstrate that the site meets
the license termination criteria in
subpart E of 10 CFR part 20 for
unrestricted release.

The NRC staff has prepared an EA in
support of the license amendment. The
facility was remediated and surveyed
prior to the licensee requesting the
license amendment. The NRC staff has
reviewed the information and final
status survey submitted by Gibraltar
Laboratories, Inc. Based on its review,
the staff has determined that there are
no additional remediation activities
necessary to complete the proposed
action. Therefore, the staff considered
the impact of the residual radioactivity
at the facility and concluded that since
the residual radioactivity meets the
requirements in subpart E of 10 CFR
part 20, a Finding of No Significant
Impact is appropriate.

III. Finding of No Significant Impact

The staff has prepared the EA
(summarized above) in support of the
license amendment to terminate the
license and release the facility for
unrestricted use. The NRC staff has
evaluated Gibraltar Laboratories, Inc.'s
request and the results of the surveys
and has concluded that the completed
action complies with the criteria in
subpart E of 10 CFR part 20. The staff
has found that the radiological
environmental impacts from the action
are bounded by the impacts evaluated
by NUREG-1496, Volumes 1-3,
"Generic Environmental Impact
Statement in Support of Rulemaking on
Radiological Criteria for License
Termination of NRC-Licensed
Facilities" (ML042310492,
ML042320379, and ML042330385).
Additionally, no non-radiological or
cumulative impacts were identified. On
the basis of the EA, the NRC has
concluded that there are no significant
environmental impacts from the
proposed action, and has determined
not to prepare an environmental impact
statement for the proposed action.

IV. Further Information

Documents related to this action,
including the application for the license
amendment and supporting
documentation, are available
electronically at the NRC's Electronic
Reading Room at [http://www.nrc.gov/
reading-rm/adams.html](http://www.nrc.gov/reading-rm/adams.html). From this site,
you can access the NRC's Agencywide
Document Access and Management
System (ADAMS), which provides text
and image files of NRC's public
documents. The ADAMS accession
numbers for the documents related to
this Notice are: Environmental
Assessment [ML060830021]; Initial
request for termination of license with
survey results for Gibraltar Laboratories,
Inc., 122 Fairfield Road, Fairfield, New
Jersey, dated August 27, 2003

[ML032461491]; Request for Additional
Information (RAI) dated September 11,
2003 [ML032541251]; Gibraltar
Laboratories, Inc.'s response dated
November 13, 2003 [ML033370153];
Facsimile from Gibraltar Laboratories,
Inc., received November 14, 2003, with
additional information concerning
survey instruments [ML033380939];
Voidance of Licensing Action by U.S.
NRC pending submission of required
information [ML033240028]; and Final
Status Survey Results for Gibraltar
Laboratories, Inc., 122 Fairfield Road,
Fairfield, New Jersey, dated October 11,
2005 [ML052940339]. Persons who do
not have access to ADAMS or who
encounter problems in accessing the
documents located in ADAMS, should
contact the NRC PDR Reference staff by
telephone at (800) 397-4209 or (301)
415-4737, or by e-mail to pdr@nrc.gov.

Documents related to operations
conducted under this license not
specifically referenced in this Notice
may not be electronically available and/
or may not be publicly available.
Persons who have an interest in
reviewing these documents should
submit a request to NRC under the
Freedom of Information Act (FOIA).
Instructions for submitting a FOIA
request can be found on the NRC's Web
site at [http://www.nrc.gov/reading-rm/
foia/foia-privacy.html](http://www.nrc.gov/reading-rm/foia/foia-privacy.html).

Dated at King of Prussia, Pennsylvania, this
28th day of March, 2006.

For the Nuclear Regulatory Commission.

James P. Dwyer,
