SUPPLEMENTARY INFORMATION:

Title: Rural Transportation Research.

Background: Section 5513(f) of The Safe, Accountable, Flexible, Efficient Transportation Equity Act: A Legacy for Users of 2005 (SAFETEA-LU) provides a grant to the New England Transportation Institute (hence "the Institute") in White River Junction, Vermont, to conduct rural transportation research. The Institute will undertake research and analysis in support of two research issues: (1) Rural Transportation Issues Definition and Refinement; and (2) Rural Transportation Safety and Health. The research includes a 2-part survey to develop information that will help support a "portrait" of present rural transportation patterns. Applying the concepts of both "mobility" and "accessibility" to the rural Northeast, the Institute's surveys will explore the issues of "rural isolation" and, driver travel behavior. The survey will address these questions:

- How serious a problem is rural isolation and perceptions of access (or lack thereof)?
- How are the economic forces acting on the rural areas affecting the manner, and length of trips in the rural Northeast?
- How are demographics going to change and/or influence the demands made on the transportation system?
