Regardless of APHIS' decision on this petition, EPA registration limits MON 95739 to small-scale breeding, testing, and seed increase nurseries, in the United States, to no more than 100 total acres across NE, HI, and IA.

APHIS applied USDA's regulation at 7 CFR part 1b, and APHIS' National Environmental Policy Act (NEPA) implementing regulations (7 CFR part 372), when preparing this draft EA.

In accordance with § 340.6(d), we are publishing this notice to inform the public that APHIS will accept written comments regarding the draft PPRA and draft EA from interested or affected persons for a period of 30 days from the date of this notice. The draft PPRA and draft EA are available for public review and comment, and copies are available as indicated under **ADDRESSES** and from the individual listed under the **FOR FURTHER INFORMATION CONTACT** section of this notice. We are particularly interested in receiving comments regarding biological or ecological issues, and we encourage the submission of scientific data, studies, or research to support your comments.

After the comment period closes, APHIS will review and evaluate any information received during the comment period and any other relevant information. After reviewing and evaluating the comments and other information, APHIS will prepare a final PPRA and EA. Based on the final EA, APHIS will prepare a NEPA decision document (either a Finding of No Significant Impact (FONSI) or a notice of intent to prepare an environmental impact statement). If a FONSI is reached, APHIS will furnish a response to the petitioner, either approving or denying the petition. APHIS will also publish a notice in the **Federal Register** announcing the regulatory status of the modified plant and the availability of APHIS' final EA, PPRA, FONSI, and our regulatory determination.

DEPARTMENT OF AGRICULTURE

Farm Production and Conservation Business Center

[Docket ID: FPAC–2025–0002]

Information Collection Request; Request for Special Priorities Assistance

AGENCY: Farm Production and Conservation Business Center, USDA.

ACTION: Notice; request for comments.

SUMMARY: In accordance with the Paperwork Reduction Act of 1995, the Farm Production and Conservation Business Center (FPAC–BC) is requesting comments from all interested individuals and organizations on an extension of a currently approved information collection request associated with the Request for Special Priorities Assistance. The information collection established by the Agriculture Priorities and Allocations System (APAS) regulation is necessary for the program applicant (person) to request prioritizing of a contract above all other contracts. The purpose of the priority rating is to obtain item(s) in support of national defense programs that they are not able to obtain in time through normal market channels.

DATES: We will consider comments that we receive by August 4, 2025.

ADDRESSES: We invite you to submit comments on the notice. You may submit comments by any of the following methods:

- *Federal eRulemaking Portal:* Go to: www.regulations.gov and search for Docket ID FPAC–2025–0002. Follow the online instructions for submitting comments.
- *Mail, Hand-Delivery, or Courier:* Donald Butler, USDA/FPAC/HSD, 1400 Independence Ave., Washington, DC 20250.

You may also send comments to the Desk Officer for Agriculture, Office of Information and Regulatory Affairs, Office of Management and Budget, Washington, DC 20503. Copies of the information collection may be requested by contacting Donald Butler.

FOR FURTHER INFORMATION CONTACT: For specific questions related to collection activities, contact Donald Butler, telephone: (816) 926–1662; or by email: donald.butler@usda.gov. Persons with disabilities who require alternative means for communication should contact the USDA Target Center at (202) 720–2600 or (844) 433–2774 (toll-free nationwide).

SUPPLEMENTARY INFORMATION:

Title: Request for Special Priorities Assistance.

OMB Control Number: 0560–0280.

Expiration Date of Approval: July 31, 2025.

Type of Request: Extension of a currently approved information collection.

Abstract: APAS would efficiently place priority ratings on contracts or orders of agriculture commodities up through the wholesale levels, agriculture production equipment, allocate resources, and handle food claims within its authority as specified in the Defense Production Act (DPA) of 1950, as amended, when necessary to promote national defense. It was determined that food is a scarce and critical commodity essential to the national defense (including civil emergency preparedness and response). Unless its production, processing, storage, and wholesale distribution are regulated during times of emergencies, the national defense requirement for food and food production may not be met without creating hardship in the civilian marketplace. Applicants (Government agencies or private individuals with a role in emergency preparedness, response, and recovery functions) request authorization from USDA to place a rating on a contract for items to support national defense activities. Priority rating request procedures and forms can be found on USDA's website. Applicants must supply, at time of request, their name, location, contact information, items for which the applicant is requesting assistance on, quantity, and delivery date. Applicants can submit the request by mail or fax. There are no changes to the burden hours since the last OMB approval.

For the following estimated total annual burden on respondents, the formula used to calculate the total burden hour is the estimated average time per responses hours multiplied by the estimated total annual responses.

Estimate of Respondent Burden: Public reporting burden for the information collection is estimated to average 30 minutes (0.50) per response.

Respondents: Individuals, businesses, and agencies with responsibilities for emergency preparedness and response.

Estimated Annual Number of Respondents: 50.

Estimated Number of Responses per Respondent: 1.

Estimated Total Annual Responses: 50.

Estimated Average Time per Response: 0.5 hours.

Estimated Total Annual Burden on Respondents: 25 hours.

We are requesting comments on all aspects of this information collection to help us to:

(1) Evaluate whether the collection of information is necessary for the proper performance of the functions of the FSA, including whether the information will have practical utility;

(2) Evaluate the accuracy of the FSA's estimate of burden including the validity of the methodology and assumptions used;

(3) Enhance the quality, utility and clarity of the information to be collected;

(4) Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology.

All comments received in response to this notice, including names and addresses when provided, will be a matter of public record. Comments will be summarized and included in the submission for Office of Management and Budget approval.

Robert Ibarra,

Chief Operating Officer, Farm Production and Conservation Business Center.
