[Project No. 2662-027]

FirstLight Hydro Generation Company; Notice of Availability of Environmental Assessment

In accordance with the National Environmental Policy Act of 1969 and the Federal Energy Regulatory Commission (Commission) regulations, 18 CFR part 380 (Order No. 486, 52 FR 47897), the Office of Energy Projects has reviewed an application submitted by FirstLight Hydro Generation Company (licensee) to amend the license for the Scotland Hydroelectric Project (FERC No. 2662). The project is located on the Shetucket River in Windham County, Connecticut.

An Environmental Assessment (EA) has been prepared as part of Commission staff's review of the proposal. In the application, the licensee proposes to install a variable pitch Kaplan runner in order to comply with run-of-river operations. The project license currently authorizes the installation of a 1.026 megawatt (MW) low flow turbine, to comply with run-of-river operational requirements that would have increased the project's capacity from 2.0 MW to 3.026 MW. This EA contains Commission staff's analysis of the probable environmental impacts of the proposed amendment and concludes that approval of the proposal would not constitute a major federal action significantly affecting the quality of the human environment.

The EA is available for electronic review and reproduction at the Commission's Public Reference Room, located at 888 First Street NE., Room 2A, Washington, DC 20426. The EA may also be viewed on the Commission's Web site at <http://www.ferc.gov> using the "eLibrary" link. Enter the docket number (P-2662) in the docket number field to access the document. For assistance, contact FERC Online Support at FERCOnlineSupport@ferc.gov or toll-free at (866) 208-3372 or for TTY, (202) 502-8659.

Any comments on the EA should be filed by December 3, 2015 and should be addressed to the Secretary, Federal Energy Regulatory Commission, 888 First Street NE., Room 1-A, Washington, DC 20426. Please reference the project name and project number (P-2662-027) on all comments. Comments may be filed electronically via the Internet in lieu of paper.
