

collection requirement is set forth in the FEMA regulation, and the information provided by the affected public is used by FEMA to determine that a building, which is located on a designated coastal barrier and for which an application for flood insurance is being made, is neither new construction nor a substantial improvement, and is, therefore, eligible for NFIP coverage. If the information is not collected, NFIP policies would be provided for buildings, which are legally ineligible for it, thus exposing the Federal Government to an insurance liability Congress chose to limit.

Collection of Information

Title: Implementation of Coastal Barrier Resources Act.

Type of Information Collection: Extension of a currently approved collection.

OMB Number: 1660-0010.

Abstract: When an application for flood insurance is submitted for buildings located in CBRS communities, one of the following types of documentation must be submitted as evidence of eligibility:

- Certification from a community official stating the building is not located in a designated CBRS area.
- A legally valid building permit or certification from a community official stating that the building's start of construction date preceded the date that the community was identified in the system.
- Certification from the governmental body overseeing the area indicating that the building is used in a manner consistent with the purpose for which the area is protected.

Affected Public: Individuals or households; Business or other for-profit; Not-for-profit institutions; Farms; Federal Government; and State, Local or Tribal Government.

Number of Respondents: 60.

Frequency of Response: One time.

Hours per Response: 1.5.

Estimated Total Cost to Respondents: \$600 (60 respondents × \$10 per respondent). The cost to the respondent, *i.e.*, applicant for flood insurance, is the cost, if any, to obtain the required documentation from local officials. Fees charged, if any, to the applicants, are nominal, *i.e.*, the cost of photocopying the public record. Information of this type is frequently provided upon request free of charge by the community as a public service. The average cost to the respondent is estimated to be \$10, the cost to make phone calls, mail a written request, or make a trip to a local office to obtain the document, and includes any copying fees, which may be charged by the local office.

COMMENTS: Written comments are solicited to (a) evaluate whether the proposed data collection is necessary for the proper performance of the agency, including whether the information shall have practical utility; (b) evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used; (c) enhance the quality, utility, and clarity of the information to be collected; and (d) minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, *e.g.*, permitting electronic submission of responses. Comments should be received within 60 days of the date of this notice.

ADDRESSES: Interested persons should submit written comments to Muriel B. Anderson, Section Chief, Records Management, Information Resources Management Branch, Information Technology Services Division, Federal Emergency Management Agency, Emergency Preparedness and Response Directorate, Department of Homeland Security, 500 C Street, SW., Room 316, Washington, DC 20472.
