

Rules and Regulations

Federal Register

Vol. 79, No. 119

Friday, June 20, 2014

This section of the FEDERAL REGISTER contains regulatory documents having general applicability and legal effect, most of which are keyed to and codified in the Code of Federal Regulations, which is published under 50 titles pursuant to 44 U.S.C. 1510.

The Code of Federal Regulations is sold by the Superintendent of Documents. Prices of new books are listed in the first FEDERAL REGISTER issue of each week.

DEPARTMENT OF AGRICULTURE

Food and Nutrition Service

7 CFR Part 220

School Breakfast Program

CFR Correction

■ In Title 7 of the Code of Federal Regulations, Parts 210 to 299, revised as of January 1, 2014, on page 107, in § 220.8, in paragraph (e), the last sentence is corrected to read as follows:

§ 220.8 Meal requirements for breakfasts.

* * * * *

(e) * * * If only three food items are offered at breakfast, school food authorities or schools may not exercise the offer versus serve option.

BILLING CODE 1505-01-D

DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

14 CFR Part 71

[Docket No. FAA-2013-0171; Airspace Docket No. 13-ANM-6]

Amendment of Class E Airspace; Redmond, OR

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This action amends the Class E airspace at Roberts Field, Redmond, OR. Controlled airspace is necessary to accommodate aircraft arriving and departing under Instrument Flight Rules (IFR) at Roberts Field. This action, initiated by the biennial review of the Redmond, OR airspace area, enhances the safety and management of aircraft operations at the airport. This action makes a minor correction to the geographic coordinates of the airport and also corrects the lateral dimensions of the southeast segment of Class E airspace designated as an extension to Class D and E surface area.

DATES: Effective date, 0901 UTC, September 18, 2014. The Director of the Federal Register approves this incorporation by reference action under 1 CFR Part 51, subject to the annual revision of FAA Order 7400.9 and publication of conforming amendments.

FOR FURTHER INFORMATION CONTACT: Richard Roberts, Federal Aviation Administration, Operations Support Group, Western Service Center, 1601 Lind Avenue SW., Renton, WA 98057; telephone (425) 203-4517.

SUPPLEMENTARY INFORMATION:

History

On February 11, 2014, the FAA published in the **Federal Register** a notice of proposed rulemaking (NPRM) to modify controlled airspace at Roberts Field, Redmond, OR (79 FR 8129). Interested parties were invited to participate in this rulemaking effort by submitting written comments on the proposal to the FAA. No comments were received.

Subsequent to publication, the FAA found an error in the lateral dimensions of the southeast segment of Class E surface area airspace and is corrected from 3.5-miles to 13.5-miles. The

geographic coordinates also are adjusted to coincide with the FAA's aeronautical database.

Class E airspace designations are published in paragraph 6002, 6004, and 6005, respectively, of FAA Order 7400.9X dated August 7, 2013, and effective September 15, 2013, which is incorporated by reference in 14 CFR 71.1. The Class E airspace designations listed in this document will be published subsequently in that Order.

The Rule

This action amends Title 14 Code of Federal Regulations (14 CFR) Part 71 by modifying Class E surface area airspace at Roberts Field, Redmond, OR, to remove the segment extending from the 5.1-mile radius of the airport to .9 miles west of the Deschutes VORTAC, and by modifying Class E airspace designated as an extension to the Class D and Class E surface area by adding a segment extending from the 5.1-mile radius of Roberts Field, Redmond, OR, to 13.5 miles southeast of the airport, and removing the segment from the 5.1-mile radius of the airport to .9 miles west of the Deschutes VORTAC. After a biennial review of the airspace, the FAA found the segment is no longer needed for aircraft arriving and departing under IFR operations. Class E airspace extending upward from 700 feet above the surface is modified with segments extending from the 7.6-mile radius of Roberts Field to 11.5 miles northeast and 15 miles southeast of the airport. The lateral dimensions of the southeast segment of Class E airspace designated as an extension, extending from the 5.1-mile radius of the airport is corrected from 3.5 miles to 13.5 miles. This rule is necessary to accommodate RNAV (GPS) standard instrument approach procedures and for the safety and management of IFR operations at the airport. Also, the geographic coordinates of the airport are updated to coincide with the FAA's aeronautical database. Except for administrative changes and the changes listed above, this rule is the same as published in the NPRM.

The FAA has determined this regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. Therefore, this regulation: (1) Is not a "significant regulatory action" under Executive Order 12866; (2) is not
