Submission for OMB Review; Comment Request

DOC has submitted to the Office of Management and Budget (OMB) for clearance the following proposal for collection of information under the provisions of the Paperwork Reduction Act (44 U.S.C. chapter 35).

Agency: U.S. Census Bureau.

Title: Field Representative Exit Questionnaire.

Form Number(s): BC-1294, BC-1294(D).

Agency Approval Number: 0607-0404.

Type of Request: Reinstatement, with change, of an expired collection.

Burden: 59 hours.

Number of Respondents: 500.

Avg Hours Per Response: BC-1294-7 minutes; BC-1294(D)-10 minutes.

Needs and Uses: Field interviewers are the foundation of Census Bureau data collection programs. Retention of trained field interviewing staff is a major concern for the Census Bureau because of both the monetary costs associated with employee turnover, as well as the potential impact on data quality. High turnover among interviewers can result in a reduction in the quality of data collected as well as increases in the cost of collecting data. In a continuous effort to devise policies and practices aimed at reducing turnover among interviewers, the Census Bureau collects data on the reasons interviewers leave the Census Bureau. The exit questionnaires (Forms BC-1294 and BC-1294(D)) are used to collect data from a sample of former current survey interviewers (field representatives) and decennial census interviewers (enumerators).

The purpose of the exit questionnaires is to determine the reasons for interviewer turnover and what the Census Bureau might have done or can do to influence them not to leave. As the demographics of our labor force, the nature of the surveys conducted, and the environment in which surveys take place continue to change, it is important that we continue to examine the interviewers' concerns. Information provided by respondents to the exit questionnaire provides insight on the measures the Census Bureau might take to decrease turnover and is useful in

helping to determine if the reasons for interviewer turnover appear to be systemic or localized. The exit questionnaires seek reasons interviewers quit, inquire about motivational factors that would have kept the interviewers from leaving, identify training program strengths and weaknesses as they impact on the decision to quit, identify supervisory style strengths and weaknesses as they impact on the decision to leave, and identify the impact of pay and other working conditions on the interviewer's decision to leave the job. The exit questionnaires have been shown to be useful and we want to continue their use.

Both exit questionnaires have been revised since the last request for clearance to improve clarity in the wording of some questions. Some answer categories that are no longer germane have been deleted or replaced. Some questions have been removed. Changes to the exit questionnaires were made based on lessons learned and feedback on the current forms.

Affected Public: Individuals or households.

Frequency: One time.

Respondent's Obligation: Voluntary.

Legal Authority: 5 U.S.C. 3101; 13 U.S.C., 23.

OMB Desk Officer: Susan Schechter, (202) 395-5103.

Copies of the above information collection proposal can be obtained by calling or writing Madeleine Clayton, Departmental Paperwork Clearance Officer, (202) 482-3129, Department of Commerce, room 6608, 14th and Constitution Avenue, NW, Washington, DC 20230 (or via the Internet at mclayton@doc.gov).

Written comments and recommendations for the proposed information collection should be sent within 30 days of publication of this notice to Susan Schechter, OMB Desk Officer, room 10201, New Executive Office Building, Washington, DC 20503.

SUPPLEMENTARY INFORMATION:

I. Abstract

The Bureau of Economic Analysis is responsible for the computation and publication of the U.S. balance of payments accounts. The information collected in this survey is an integral part of the "private remittances" portion of the U.S. balance of payments accounts. The balance of payments accounts, which are published quarterly in the Bureau's monthly publication, the *Survey of Current Business*, are one of the major statistical products of BEA. The accounts provide a statistic summary of U.S. international transactions. They are used by government and private organizations for national and international policy formulation, and analytical studies. Without the information collected in this survey, an integral component of the private remittances account would be omitted. No other Government agency collects comprehensive annual data on private unilateral transfers of funds to foreign countries.

The survey requests information from U.S. religious, charitable, educational, scientific, and similar organizations on the transfer of cash grants to foreign countries and their expenditures in foreign countries. Information is collected on a quarterly basis from institutions transferring \$1 million or more each year, and annually for all others. Nonprofit organizations with

total remittance of less than \$25,000 annually are exempt from reporting.

II. Method of Collection

Information is obtained from U.S. religious, charitable, educational, scientific, and similar organizations who voluntarily agree to provide data regarding transfers of cash grants to foreign countries and their expenditures in foreign countries. Submission of the completed report form, or computer printouts in the format of the report form, are the most expedient and economical methods of reporting the information. In accordance with the Paperwork Reduction Act of 1995, BEA is implementing the ASTAR system which allows organizations to file electronically via the Internet.

Form Number: BE-40.

Estimated Total Annual Burden Hours: 3,273 hours.

Estimated Total Annual Cost: The estimated annual cost to the government is \$17,600. The estimated annual cost to the public is \$98,190 based on total number of hours estimated as the reporting burden and as estimated hourly cost of \$30.

Respondent's Obligation: Voluntary.

Legal Authority: Bretton Woods Agreement Act, Section 8, and E.O. 10033, as amended.

IV. Request for Comments

Comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency; including whether the information shall have practical utility; (b) the accuracy of the agency's estimate of burden (including hours and costs) of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology.

Comments submitted in response to this notice will be summarized and/or

included in the request for OMB approval of the information collection; they also will become a matter of public record.
