Revision to the Manual of Regulations and Procedures for Federal Radio Frequency Management**AGENCY:** National Telecommunications and Information Administration, U.S. Department of Commerce.**ACTION:** Final rule.

SUMMARY: The National Telecommunications and Information Administration (NTIA) is making certain changes to its regulations relating to the public availability of the Manual of Regulations and Procedures for Federal Radio Frequency Management (NTIA Manual). Specifically, NTIA is releasing an update to the current edition of the NTIA Manual, with which federal agencies must comply when requesting use of radio frequency spectrum.

DATES: This regulation is effective on December 11, 2014. The incorporation by reference of certain publications listed in the rule is approved by the Director of the Federal Register as of December 11, 2014.

ADDRESSES: A reference copy of the NTIA Manual, including all revisions in effect, is available in the Office of Spectrum Management, 1401 Constitution Avenue NW., Room 1087, Washington, DC 20230.

FOR FURTHER INFORMATION CONTACT: William Mitchell, Office of Spectrum Management at (202) 482–8124 or wmitchell@ntia.doc.gov.

SUPPLEMENTARY INFORMATION:**Background**

NTIA authorizes the U.S. Government’s use of radio frequency spectrum. 47 U.S.C. 902(b)(2)(A). As part of this authority, NTIA developed the NTIA Manual to provide further guidance to applicable federal agencies on the use of the radio frequency spectrum for radio transmissions for telecommunications or for other purposes. The NTIA Manual is the compilation of policies and procedures that govern the use of the radio frequency spectrum by the U.S. Government. Federal government agencies are required to follow these policies and procedures in their use of spectrum.

Part 300 of title 47 of the Code of Federal Regulations provides information about the process by which NTIA regularly revises the NTIA Manual and makes public this document and all revisions. Federal agencies are required to comply with the specifications in the NTIA Manual when requesting frequency assignments. See 47 U.S.C. 901 *et seq.*, Executive Order 12046 (March 27, 1978), 43 FR 13349, 3 CFR 1978 Comp. at 158.

This rule updates section § 300.1(b) of title 47 of the Code of Federal Regulations to specify the edition of the NTIA Manual with which federal agencies must comply when requesting frequency assignments. In particular, this rule amends § 300.1(b) by replacing “2013 Edition of the NTIA Manual, dated May 2013.” with “2013 Edition of the NTIA Manual, as revised through May 2014.” See Revision to the Manual of Regulations and Procedures for Federal Radio Frequency Management, 78 FR 52097, 52097–98 (Aug. 22, 2013) (revising the Manual through May 2013). Upon the effective date of this rule, federal agencies must comply with the requirements set forth in the 2013 edition of the NTIA Manual, as revised through May 2014.

The NTIA Manual is scheduled for revision in January, May, and September of each year and is submitted to the Director of the Federal Register for Incorporation by Reference approval. The Director of the Federal Register approved this incorporation by reference in accordance with 5 U.S.C. 552(a) and part 51 of title 1 of the Code of Federal Regulations. The NTIA Manual is available from the Superintendent of Documents, U.S. Government Printing Office, Washington, DC 20402, by referring to Catalog Number 903–008–00000–8. A reference copy of the NTIA Manual, including all revisions in effect, is available in the Office of Spectrum Management, 1401 Constitution Avenue NW., Room 1087, Washington, DC 20230, by calling William Mitchell on (202) 482–8124, and available online at <http://www.ntia.doc.gov/page/2011/manual-regulations-and-procedures-federal-radio-frequency-management-redbook>. The NTIA Manual is also on file at the National Archives and Records Administration (NARA).
