

of the rudder control system to verify the parts were installed using the correct standard, and corrective actions if necessary. For certain VLAs, this new AD requires repetitive inspections of the VLA and corrective action if necessary. This new AD also provides a terminating action for the repetitive inspections. Furthermore, this new AD reduces the applicability of affected airplanes.

As published, that final rule incorrectly specified the AD number for the superseded AD in a single location in the AD as "2002-08-13" instead of "2001-22-02."

Since no other part of the regulatory information has been changed, the final rule is not being republished in the **Federal Register**.

The effective date of this AD remains March 21, 2005.

SUPPLEMENTARY INFORMATION:

History

On February 7, 2005, the FAA published in the **Federal Register** a final rule establishing V-623 (70 FR 6336) with an effective date of May 12, 2005. However, navigation aid signal coverage problems have been identified which remain unresolved. As a result, the FAA has decided to revoke V-623.

The Rule

The FAA is amending title 14 Code of Federal Regulations (14 CFR) part 71 by revoking VOR Federal airway V-623. The FAA is taking this action due to unresolved navigation aid signal coverage problems along segments of the route.

VOR Federal Airways are published in paragraph 6010 of FAA Order 7400.9M dated August 30, 2004 and effective September 16, 2004, which is incorporated by reference in 14 CFR 71.1.

The FAA has determined that this regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. Therefore, this regulation: (1) Is not a "significant regulatory action" under Executive Order 12866; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this rule, when promulgated, will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

The Adoption of the Amendment

■ In consideration of the foregoing, the Federal Aviation Administration amends 14 CFR part 71 as follows:

■ 1. The authority citation for part 71 continues to read as follows:

§ 71.1 [Amended]

■ 2. The incorporation by reference in 14 CFR 71.1 of FAA Order 7400.9M, Airspace Designations and Reporting Points, dated August 30, 2004, and effective September 16, 2004, is amended as follows:
