SUPPLEMENTARY INFORMATION:

Background

In early 2021, we announced a 5-year review of multiple Caribbean coral species, including the pillar coral, *D. cylindrus*, to determine whether the listing classifications of these species were still accurate (86 FR 1091, January 7, 2021). We solicited peer review of the scientific information contained in the proposed rule from three independent experts from the scientific community who have expertise in pillar coral biology, ecology, conservation, and threats to the species; and we incorporated their comments prior to publication of the proposed rule.
