Interested government agencies, private-sector organizations, and the general public are encouraged to submit comments concerning the content of the EIS, issues and impacts to be addressed in the EIS, and alternatives that should be considered. Scoping comments should clearly describe specific issues or topics that the EIS should address to assist DOE in identifying significant issues. Comments must be postmarked or e-mailed by December 14, 2009 to ensure consideration. (See **ADDRESSES**). Late comments will be considered to the extent practicable. DOE invites those agencies with jurisdiction by law or special expertise to be cooperating agencies.

A public scoping meeting will be held at a date, time, and location to be determined. Notice of this meeting will be provided in local news media and on the DOE Loan Guarantee Program's "NEPA Public Involvement" Web site (<http://www.lgprogram.energy.gov/NEPA-2.html>) at least 15 days prior to the date of the meeting. Members of the public and representatives of groups and Federal, state, local, and Tribal agencies are invited to attend. The meeting will include both a formal opportunity to present oral comments and an informal session during which DOE and IG personnel will be available for discussions with attendees. Displays and other forms of information about the proposed agency action, the EIS process, and the IG proposed Facility will also be available for review. DOE requests that anyone who wishes to present oral comments at the meeting contact Mr. Boren by phone or e-mail (see **ADDRESSES** above). Individuals who do not make advance arrangements to speak may register at the meeting. DOE may need to limit speakers to five minutes initially, but will provide additional opportunities as time permits. (CEFS) Line B-55 EXT in its entirety and an approximately two mile long segment of Line B-106, located in Sebastian and Crawford Counties, Arkansas; and, to abandon in place its Hobbs Compressor Station, located in Sebastian County, Arkansas, all as more fully set forth in the application which is on file with the Commission and open to public inspection. This filing may also be viewed on the Commission's Web site at <http://www.ferc.gov> using the "eLibrary" link. Enter the docket number, excluding the last three digits, in the docket number field to access the document. For assistance, call (866) 208-3676 or TTY, (202) 502-8659.

Any questions regarding this application should be directed to B. Michelle Willis, Manager, Regulatory & Compliance, CenterPoint Energy Gas Transmission Company, P.O. Box 21734, Shreveport, Louisiana 71151, or by calling (318) 429-3708 (telephone) or (318) 429-3133 (fax), michelle.willis@centerpointenergy.com, or to Mark C. Schroeder, Vice President & General Counsel, CenterPoint Energy Gas Transmission Company, P.O. Box 1700, Houston, Texas 77210-1700, or by calling (713) 207-3395 (telephone) or (713) 207-0711 (fax), mark.schroeder@centerpointenergy.com.

Pursuant to section 157.9 of the Commission's rules, 18 CFR 157.9, within 90 days of this Notice the Commission staff will either: complete its environmental assessment (EA) and place it into the Commission's public

record (eLibrary) for this proceeding, or issue a Notice of Schedule for Environmental Review. If a Notice of Schedule for Environmental Review is issued, it will indicate, among other milestones, the anticipated date for the Commission staff's issuance of the final environmental impact statement (FEIS) or EA for this proposal. The filing of the EA in the Commission's public record for this proceeding or the issuance of a Notice of Schedule for Environmental Review will serve to notify Federal and State agencies of the timing for the completion of all necessary reviews, and the subsequent need to complete all Federal authorizations within 90 days of the date of issuance of the Commission staff's FEIS or EA.

There are two ways to become involved in the Commission's review of this project. First, any person wishing to obtain legal status by becoming a party to the proceedings for this project should, on or before the comment date stated below, file with the Federal Energy Regulatory Commission, 888 First Street, NE., Washington, DC 20426, a motion to intervene in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 385.214 or 385.211) and the Regulations under the NGA (18 CFR 157.10). A person obtaining party status will be placed on the service list maintained by the Secretary of the Commission and will receive copies of all documents filed by the applicant and by all other parties. A party must submit 14 copies of filings made with the Commission and must mail a copy to the applicant and to every other party in the proceeding. Only parties to the proceeding can ask for court review of Commission orders in the proceeding.

However, a person does not have to intervene in order to have comments considered. The second way to participate is by filing with the Secretary of the Commission, as soon as possible, an original and two copies of comments in support of or in opposition to this project. The Commission will consider these comments in determining the appropriate action to be taken, but the filing of a comment alone will not serve to make the filer a party to the proceeding. The Commission's rules require that persons filing comments in opposition to the project provide copies of their protests only to the party or parties directly involved in the protest.

Persons who wish to comment only on the environmental review of this project should submit an original and two copies of their comments to the Secretary of the Commission. Environmental commenters will be
