National Park Service

Tallgrass Prairie National Preserve, Kansas

ACTION: Record of Decision.

Introduction: The National Park Service has prepared the Final General Management Plan/Final Environmental Impact Statement (GMP/EIS) for Tallgrass Prairie National Preserve, Kansas. This Record of Decision is a statement of the decisions made, other alternatives considered, the basis for the decision, the environmentally preferable alternative, measures proposed to mitigate environmental harm, and public involvement in the decision-making process.

Decision: The National Park Service will implement the proposed action as described in the Preferred Alternative and the Actions Common to all Action Alternatives sections of the General Management Plan/Environmental Impact Statement issued in September 2000.

Summary of the Selected Action: The goal of the selected action is the

integrated management of the natural and cultural resources of the preserve. Two fundamental ideas form the basis for the preferred alternative: (1) Tallgrass Prairie National Preserve has been established as a unit of the National Park System to preserve, protect, and interpret for the public a remnant of the once vast tallgrass prairie ecosystem, and (2) this remnant exists today because of a complex history of interaction between people and the land. The proposed management plan seeks to reflect this long history of interaction. Management areas will be designated to provide guidance for implementing desired future conditions and visitor experience goals.

The National Park Service (NPS) will enter into a long-term legal agreement with the landowner, the National Park Trust (NPT), to manage the preserve. Initially, the NPS will acquire, through
