Request for Information (RFI) on NSF Public Access Plan 2.0: Ensuring Open, Immediate, and Equitable Access to National Science Foundation Funded Research

AGENCY: National Science Foundation (NSF).

ACTION: Request for information.

SUMMARY: The National Science Foundation (NSF) is seeking public input from the science and engineering research and education community on implementing NSF Public Access Plan 2.0: Ensuring Open, Immediate, and Equitable Access to National Science Foundation Funded Research. This plan, described in **SUPPLEMENTARY INFORMATION**, represents an update to NSF current public access requirements in response to recent White House Office of Science and Technology Policy guidance. A primary consideration during the development of NSF's plan has been potential equity impacts of public access requirements. NSF's goal is to improve equity throughout the research life cycle, making data and opportunities available to all researchers, including those from marginalized communities and historically under-resourced institutions of higher education in the U.S. NSF is committed to considering the needs of the diverse US research community, including identifying possible unintended consequences that the plan and its implementation could produce.

DATES: Interested persons or organizations are invited to submit comments on or before 11:59 p.m. (EST) on January 2, 2024.

ADDRESSES: The preferred method of response is to complete as much of the online RFI as you wish. However, if you cannot or do not wish to access this tool, comments submitted in response to this notice may also be submitted by the following methods:

Email: PublicAccess2-RFI@nsf.gov. Email submissions should be machine-readable and not be copy-protected. Submissions should include "RFI Response: NSF Public Access 2.0" in the subject line of the message.

Mail: Attn. Martin Halbert, 2415 Eisenhower Ave., Alexandria, VA 22314.

Responses may address one or as many topics as desired from the enumerated list provided in this RFI, noting the corresponding number of the topic(s) to which the response pertains. Submissions must not exceed 3 pages (exclusive of cover page) in 11-point or larger font, with a page number provided on each page. Responses should include the name of the person(s) or organization(s) filing the comment, as well as the respondent type (e.g., academic institution, advocacy group, professional society, community-based organization, industry, member of the public, government, other). Respondent's role in the organization may also be provided (e.g., researcher, administrator, student, program manager, journalist) on a voluntary basis.

No business proprietary information, copyrighted information, or personally identifiable information (aside from that requested above) should be submitted in response to this RFI. Comments submitted in response to this RFI will be used internally at NSF and may be shared with other Federal agencies. Any online or public release of data will only be in aggregate form to protect the identity of submitters. Please note that all questions are optional.

FOR FURTHER INFORMATION CONTACT: For additional information, please direct questions to Martin Halbert at PublicAccess2-RFI@nsf.gov, (703) 292-5111.

SUPPLEMENTARY INFORMATION: The U.S. National Science Foundation Public Access Plan 2.0: Ensuring Open, Immediate, and Equitable Access to National Science Foundation Funded Research has been prepared in response to the memorandum dated August 25, 2022, from the White House Office of Science and Technology Policy, or OSTP, titled Ensuring Free, Immediate, and Equitable Access to Federally Funded Research, and signed by Alondra Nelson. It updates NSF's original public access plan, Today's Data, Tomorrow's Discoveries: Increasing Access to the Results of Research Funded by the National Science Foundation, dated March 18, 2015.

Broadly, Public Access Plan 2.0: Ensuring Open, Immediate, and Equitable Access to National Science Foundation Funded Research describes how:

- all peer-reviewed scholarly publications resulting from NSF-funded research will be made freely available
