Arena Energy, L.P. v. Sea Robin Pipeline Company, LLC; Notice of Complaint

August 3, 2010.

Take notice that on August 2, 2010, pursuant to Rule 206 of the Federal Energy Regulatory Commission's (Commission) Rules of Practice and Procedure, 18 CFR 385.206 (2010), Arena Energy, L.P. (Complainant) filed a formal complaint against Sea Robin Pipeline Company, LLC (Respondent) alleging that the Respondent impermissibly terminated an interruptible transportation service (ITS) agreement prior to the expiration of its associated discounted rate term.

Complainant certifies that copies of the complaint were served on the corporate officials the Respondent registered with the Commission.

Any person desiring to intervene or to protest this filing must file in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211, 385.214).

Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a notice of intervention or motion to intervene, as appropriate. The Respondent's answer and all interventions, or protests must be filed on or before the comment date. The Respondent's answer, motions to intervene, and protests must be served on the Complainants.

The Commission encourages electronic submission of protests and interventions in lieu of paper using the "eFiling" link at <http://www.ferc.gov>. Persons unable to file electronically should submit an original and 14 copies of the protest or intervention to the Federal Energy Regulatory Commission, 888 First Street, NE., Washington, DC 20426.

This filing is accessible online at <http://www.ferc.gov>, using the "eLibrary" link and is available for review in the Commission's Public Reference Room in Washington, DC. There is an "eSubscription" link on the Web site that enables subscribers to receive e-mail notification when a document is added to a subscribed docket(s). For assistance with any FERC Online service, please e-mail FERCOnlineSupport@ferc.gov, or call (866) 208-3676 (toll free). For TTY, call (202) 502-8659.

Comment Date: 5 p.m. Eastern Time on August 23, 2010.

Nathaniel J. Davis, Sr.,
Deputy Secretary.

BILLING CODE 6717-01-P

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

[Docket No. PF10-20-000]

Sawgrass Storage LLC; Notice of Intent To Prepare an Environmental Assessment for the Planned Sawgrass Storage Project and Request for Comments on Environmental Issues

August 6, 2010.

The staff of the Federal Energy Regulatory Commission (FERC or Commission) will prepare an environmental assessment (EA) that will discuss the environmental impacts of the Sawgrass Storage Project involving construction and operation of facilities by Sawgrass Storage LLC (Sawgrass) in Lincoln, Ouachita, and Union Parish, Louisiana. This EA will be used by the

Commission in its decision-making process to determine whether the project is in the public convenience and necessity.

This notice announces the opening of the scoping process the Commission will use to gather input from the public and interested agencies on the project. Your input will help the Commission staff determine what issues need to be evaluated in the EA. Please note that the scoping period will close on September 7, 2010.

This notice is being sent to the Commission's current environmental mailing list for this project. State and local government representatives are asked to notify their constituents of this planned project and encourage them to comment on their areas of concern.

If you are a landowner receiving this notice, you may be contacted by a pipeline company representative about the acquisition of an easement to construct, operate, and maintain the planned facilities. The company would seek to negotiate a mutually acceptable agreement. However, if the project is approved by the Commission, that approval conveys with it the right of eminent domain. Therefore, if easement negotiations fail to produce an agreement, the pipeline company could initiate condemnation proceedings where compensation would be determined in accordance with state law.

A fact sheet prepared by the FERC entitled "An Interstate Natural Gas Facility On My Land? What Do I Need To Know?" is available for viewing on the FERC Web site (<http://www.ferc.gov>). This fact sheet addresses a number of typically-asked questions, including the use of eminent domain and how to participate in the Commission's proceedings.

Summary of the Planned Project

Sawgrass plans to construct and operate a natural gas storage facility with a working gas capacity of 25 billion cubic feet. According to Sawgrass, its project would provide flexible, market-based rate storage services on various interstate and intrastate pipeline systems, and provide supplemental natural gas supply during periods of peak natural gas usage.

The Sawgrass Storage Project would consist of the following facilities:

- A storage reservoir in a depleted natural gas production field;
- 5 wellpads with up to 20 horizontally drilled wells;
- Approximately 5.5 miles of gathering pipeline;
