SUPPLEMENTARY INFORMATION:

Reference: AP300039XX.

Purpose and Use:

Brief description of the purpose of the transaction: The purpose of the transaction is to generate power through the recovery of waste heat via the conversion of the existing Al-Sadder simple cycle power plant to a combined cycle power plant.

Brief non-proprietary description of the anticipated use of the items being exported: The items will be used to provide power via waste heat recovery to increase the availability and reliability of power for the Iraqi people. Once completed, the combined cycle power plant will increase the production of power by 329 MW or 51% and increase plant fuel efficiency by over 50%. Because of the increased production of electricity, the project will result in a 32% reduction in greenhouse gas emissions per MWh of electricity generated. In essence, this project enables the generation of additional electricity without the need to burn a significant amount of additional natural gas.
