(Detection Limit = 1 colony form unit (CFU)/100 mL),

- Total Suspended Solids (TSS) Test Method 160.2 (Detection Limit = 4.0mg/L),
- Biochemical Oxygen Demand (BOD<sub>5</sub>) without nitrification <sup>3</sup> Test Method 5210  $B^3$  (Detection Limit = 2.0

 Chemical Oxygen Demand (COD) Test Method 410.4 (Detection Limit =

3.0 mg/L,

• pH Test Method 150.1 (none stated but not normally reported below 0.01),4

• Total Nitrogen <sup>5</sup> 351.2 (Detection Limit = 0.5 mg/L),

Total Phosphorus Test Method 365.2 (Detection Limit = 0.01 mg/L) and Disinfectant residual

• Chlorine Test Method 330.5 (Detection Limit = 0.2 mg/L)

The Coast Guard is also seeking information on possible simple on board checks that may be available and easily used to verify performance of a sewage treatment plant with effluent requirements.

This notice is issued under authority of 5 U.S.C. 552(a).

Dated: October 9, 2015.

#### F.J. Sturm,

Deputy Director, Commercial Regulations and Standards, U.S. Coast Guard.

### DEPARTMENT OF HOMELAND SECURITY

## **Federal Emergency Management** Agency

[Docket ID FEMA-2015-0001; Internal Agency Docket No. FEMA-B-1534]

### Changes in Flood Hazard **Determinations**

**AGENCY:** Federal Emergency Management Agency, DHS.

Display=p%7Cf&DefSeekPage=x&Search Back=ZyActionL&Back=ZyActionS&BackDesc= Results%20page&MaximumPages=1&ZyEntry=1.

<sup>3</sup> The equivalent U.S. EPA Test Method for Biochemical Oxygen Demand (BOD5) without nitrification is done as carbonaceous biochemical oxygen demand (CBOD5) and should not be confused with the traditional BOD5 test method which measures "total BOD". The addition of the nitrification inhibitor is not a procedural option but must be included to report the CBOD5

<sup>4</sup> There is no US EPA Test Method listed in 40 CFR 136 so the US EPA has adopted American Public Health Association (APHA) Standard Methods for the Examination of Water and Wastewater. The current edition is the 22nd edition.

<sup>5</sup> Total Nitrogen means the sum of total Kjeldahl nitrogen (organic and ammoniacal nitrogen) nitratenitrogen and nitrite-nitrogen.

**ACTION:** Notice.

**SUMMARY:** This notice lists communities where the addition or modification of Base Flood Elevations (BFEs), base flood depths, Special Flood Hazard Area (SFHA) boundaries or zone designations, or the regulatory floodway (hereinafter referred to as flood hazard determinations), as shown on the Flood Insurance Rate Maps (FIRMs), and where applicable, in the supporting Flood Insurance Study (FIS) reports, prepared by the Federal Emergency Management Agency (FEMA) for each community, is appropriate because of new scientific or technical data. The FIRM, and where applicable, portions of the FIS report, have been revised to reflect these flood hazard determinations through issuance of a Letter of Map Revision (LOMR), in accordance with Title 44, Part 65 of the Code of Federal Regulations (44 CFR part 65). The LOMR will be used by insurance agents and others to calculate appropriate flood insurance premium rates for new buildings and the contents of those buildings. For rating purposes, the currently effective community number is shown in the table below and must be used for all new policies and renewals.

DATES: These flood hazard determinations will become effective on the dates listed in the table below and revise the FIRM panels and FIS report in effect prior to this determination for the listed communities.

From the date of the second

publication of notification of these changes in a newspaper of local circulation, any person has 90 days in which to request through the community that the Deputy Associate Administrator for Mitigation reconsider the changes. The flood hazard determination information may be changed during the 90-day period. **ADDRESSES:** The affected communities are listed in the table below. Revised flood hazard information for each community is available for inspection at both the online location and the respective community map repository address listed in the table below. Additionally, the current effective FIRM and FIS report for each community are accessible online through the FEMA Map Service Center at

www.msc.fema.gov for comparison. Submit comments and/or appeals to the Chief Executive Officer of the community as listed in the table below.

FOR FURTHER INFORMATION CONTACT: Luis Rodriguez, Chief, Engineering Management Branch, Federal Insurance

and Mitigation Administration, FEMA, 500 C Street SW., Washington, DC 20472, (202) 646–4064, or (email) Luis.Rodriguez3@fema.dhs.gov; or visit the FEMA Map Information eXchange (FMIX) online at www.floodmaps.fema.gov/fhm/fmx main.html.

SUPPLEMENTARY INFORMATION: The specific flood hazard determinations are not described for each community in this notice. However, the online location and local community map repository address where the flood hazard determination information is available for inspection is provided.

Any request for reconsideration of flood hazard determinations must be submitted to the Chief Executive Officer of the community as listed in the table below.

The modifications are made pursuant to section 201 of the Flood Disaster Protection Act of 1973, 42 U.S.C. 4105, and are in accordance with the National Flood Insurance Act of 1968, 42 U.S.C. 4001 et seq., and with 44 CFR part 65.

The FIRM and FIS report are the basis of the floodplain management measures that the community is required either to adopt or to show evidence of having in effect in order to qualify or remain qualified for participation in the National Flood Insurance Program

These flood hazard determinations, together with the floodplain management criteria required by 44 CFR 60.3, are the minimum that are required. They should not be construed to mean that the community must change any existing ordinances that are more stringent in their floodplain management requirements. The community may at any time enact stricter requirements of its own or pursuant to policies established by other Federal, State, or regional entities. The flood hazard determinations are in accordance with 44 CFR 65.4.

The affected communities are listed in the following table. Flood hazard determination information for each community is available for inspection at both the online location and the respective community map repository address listed in the table below. Additionally, the current effective FIRM and FIS report for each community are accessible online through the FEMA Map Service Center at www.msc.fema.gov for comparison.

(Catalog of Federal Domestic Assistance No. 97.022, "Flood Insurance.")

Dated: August 28, 2015.

[Docket ID FEMA-2015-0001; Internal Agency Docket No. FEMA-B-1533]

## Changes in Flood Hazard Determinations

**AGENCY:** Federal Emergency Management Agency, DHS.

**ACTION:** Notice.

SUMMARY: This notice lists communities where the addition or modification of Base Flood Elevations (BFEs), base flood depths, Special Flood Hazard Area (SFHA) boundaries or zone designations, or the regulatory floodway (hereinafter referred to as flood hazard determinations), as shown on the Flood Insurance Rate Maps (FIRMs), and where applicable, in the supporting Flood Insurance Study (FIS) reports, prepared by the Federal Emergency

Management Agency (FEMA) for each community, is appropriate because of new scientific or technical data. The FIRM, and where applicable, portions of the FIS report, have been revised to reflect these flood hazard determinations through issuance of a Letter of Map Revision (LOMR), in accordance with Title 44, Part 65 of the Code of Federal Regulations (44 CFR part 65). The LOMR will be used by insurance agents and others to calculate appropriate flood insurance premium rates for new buildings and the contents of those buildings. For rating purposes, the currently effective community number is shown in the table below and must be used for all new policies and renewals.

**DATES:** These flood hazard determinations will become effective on the dates listed in the table below and revise the FIRM panels and FIS report in effect prior to this determination for the listed communities.

From the date of the second publication of notification of these changes in a newspaper of local circulation, any person has 90 days in which to request through the community that the Deputy Associate Administrator for Mitigation reconsider the changes. The flood hazard determination information may be changed during the 90-day period.

ADDRESSES: The affected communities are listed in the table below. Revised flood hazard information for each community is available for inspection at both the online location and the respective community map repository address listed in the table below. Additionally, the current effective FIRM and FIS report for each community are accessible online through the FEMA Map Service Center at www.msc.fema.gov for comparison.

Submit comments and/or appeals to the Chief Executive Officer of the community as listed in the table below.
