(incorporated by reference as specified in § 250.198), API RP 14G (incorporated by reference as specified in § 250.198), and API RP 14F, Design and Installation of Electrical System for Offshore Production Platforms (incorporated by reference as specified in § 250.198).

11. In § 250.1630 the following changes are made:

- A. Paragraphs (a) introductory text and (a)(2) introductory text are revised to read as set forth below.
- B. Paragraphs (a)(3) through (a)(5) are redesignated (a)(4) through (a)(6).
- C. New paragraph (a)(3) is added to read as set forth below.

§ 250.1630 Safety-system testing and records.

- (a) Inspection and testing. You must inspect and successfully test safety system devices at the interval specified below or more frequently if operating conditions warant. Testing must be in accordance with API RP 14C, Appendix D (incorporated by reference as specified in § 250.198). For safety system devices other than those listed in API RP 14C, Appendix D, you must utilize the analysis technique and documentation specified therein for inspection and testing of these components, and the following: * *
- (2) The following safety devices (excluding electronic pressure transmitters and level sensors) must be inspected and tested at least once each calendar month, but at no time may more than 6 weeks elapse between tests:
- (3) The following electronic pressure transmitters and level sensors must be inspected and tested at least once every 3 months, but at no time may more than 120 days elapse between tests:
 - (i) All PSH or PSL, and(ii) All LSH and LSL controls.

DEPARTMENT OF TRANSPORTATION

Coast Guard

33 CFR Part 117

[CGD07-02-098]

Drawbridge Operation Regulations; Atlantic Intracoastal Waterway, mile 1055.0 at Pompano Beach, Broward County, FL

AGENCY: Coast Guard, DOT.

ACTION: Notice of temporary deviation from regulations.

SUMMARY: The Commander, Seventh Coast Guard District, has approved a temporary deviation from the regulations governing the operation of the NE. 14th Street (SR 844) bridge, mile 1055.0 at Pompano Beach, Florida, from August 2 to August 14, 2002. This deviation allows this bridge to only open a single-leaf of the bridge. Doubleleaf openings will be available with a one-hour advance notice to the bridge tender. This temporary deviation is required to allow the bridge owner to safely complete repairs to the bridge. **DATES:** This deviation is effective from 12:01 a.m. on August 2, 2002 to 8 p.m. on August 14, 2002.

ADDRESSES: Material received from the public, as well as documents indicated in this preamble as being available in the docket, will become part of this docket and will be available for inspection or copying at Commander (obr), Seventh Coast Guard District, 909 SE. 1st Avenue, Room 432, Miami, FL 33131 between 7:30 a.m. and 4 p.m., Monday through Friday, except Federal holidays.

FOR FURTHER INFORMATION CONTACT: Mr. Michael Lieberum, Project Officer, Seventh Coast Guard District, Bridge Section at (305) 415–6744.

SUPPLEMENTARY INFORMATION: The SR 844 (NE. 14th Street) bridge, mile 1055.0 at Pompano Beach, Broward County, Florida, has a vertical clearance of 15 feet at mean high water and a horizontal clearance of 45 feet between the down span and the fender system. The existing operating regulations in 33 CFR 117.261(cc) require the bridge to open on signal, except that, from 7 a.m. to 6 p.m., the draw need open only on the quarter-hour and three-quarter-hour.

The Florida Department of Transportation notified the Coast Guard on July 24, 2002, that due to an equipment malfunction, they temporarily can only operate a single-leaf of the drawbridge. A double-leaf opening will be available if a one-hour's notice is provided to the bridge tender, allowing enough time to bring in a work crew to open the other leaf.

The District Commander has granted a temporary deviation from the operating requirements listed in 33 CFR 117.261(cc) to complete repairs to the drawbridge. Under this deviation, the SR 844 (NE. 14th Street) bridge, mile 1055.0 at Pompano Beach, need only open a single-leaf on signal; except that, from 7 a.m. to 6 p.m., the draw need open a single-leaf on the quarter-hour and three-quarter-hour from 12:01 a.m.

on August 2, 2002, to 8 p.m. on August 14, 2002. A double-leaf opening will be available if one-hour's advance notice is provided to the bridge tender from 12:01 a.m. on August 2, 2002, to 8 p.m. on August 14, 2002.

Dated: August 1, 2002.

Greg Shapley,

Chief, Bridge Administration Branch, Seventh Coast Guard District.

Safety and Security Zones; USCGC EAGLE Port Visit—Salem Harbor, MA

AGENCY: Coast Guard, DOT. **ACTION:** Temporary final rule.

SUMMARY: The Coast Guard is establishing temporary safety and security zones for the United States Coast Guard Cutter (CGC) EAGLE's port visit to the PG&E Power Plant in Salem, MA, from August 9, 2002, to August 12, 2002. The safety and security zones close all waters within a 100-yard radius of the USCGC EAGLE while underway off the coast of Massachusetts in United States territorial seas, and while moored at the PG&E Pier in Salem Harbor, Salem, MA. The safety and security zones prohibit entry into or movement within this portion of Salem Harbor during the effective periods.

DATES: This rule is effective from 6 a.m. August 9 until 11:59 p.m., August, 12, 2002.

ADDRESSES: Documents indicated in this preamble are available for inspection or copying at Marine Safety Office Boston, 455 Commercial Street, Boston, MA between the hours of 8 a.m. and 3 p.m., Monday through Friday, except Federal holidays.

FOR FURTHER INFORMATION CONTACT: LT David M. Sherry, Marine Safety Office Boston, Waterways Safety and Response Division, at (617) 223–3000.

SUPPLEMENTARY INFORMATION:

Regulatory Information

On July 11, 2002, we published a notice of proposed rulemaking (NPRM) entitled "Safety and Security Zones: USCGC EAGLE Port Visit—Salem Harbor, Massachusetts" in the **Federal Register** (67 FR 45945). We received no
