Background and Purpose

Manatee County has proposed to construct a new highway bridge across navigable waters of the United States to provide improvements to north-south transportation movements in eastern Manatee County, Florida. Over the past decade, Manatee County has conducted studies to:

- Document potential impacts from proposed improvements;
- Document ways to provide safer operating conditions for vehicular and pedestrian traffic;
- Improve capacity of the local roadway network;
- Improve local mobility; reduce congestion; improve emergency response times; and
- Improve evacuation capacity across the Manatee River.

The DEIS identifies the preferred alternative as connecting Upper Manatee River Road and Fort Hamer Road with a new highway bridge across the Manatee River, approximate mile 15.0, at Parrish, Manatee County, Florida. The proposed structure would meet or exceed a vertical clearance of 26.0 feet. The purpose of the proposed crossing is to provide a transportation route between high-growth areas of Manatee County located east of Interstate 75 (I–75) and separated by the Manatee River. As a structure over navigable waters of the United States, it requires a Coast Guard Bridge Permit pursuant to the General Bridge Act of 1946 (33 U.S.C. 525–533). The bridge permit would be the major federal action in this undertaking since federal funds will not be used, and therefore the Department of Homeland Security, through the United States Coast Guard, is the federal lead agency for review of potential effects on navigation and on the human environment, including historic properties, pursuant to the National Environmental Policy Act of 1969 (NEPA), as amended (42 U.S.C. 4321 et seq.) and the National Historic Preservation Act (NHPA), as amended (16 U.S.C. 470 et seq.).

Manatee County has prepared a DEIS in conjunction with the U.S. Coast Guard and in accordance with NEPA. See “Viewing the comments and DEIS” above. The DEIS identifies and examines the reasonable alternatives (including “No Build”) and assesses the potential for impact to the human environment, including historic properties, of the alternative proposals. The DEIS provides an in-depth analysis of two alternative build sites, Fort Hamer Alternative which is a new two lane, low-level fixed span bridge, (Manatee County planning documents

identified a need for 4-lanes of new capacity across the river east of I–75. Due to funding constraints and the lack of additional funding in the foreseeable future, the proposed action has been reduced from adding four lanes of capacity across the river to two lanes); and the Rye Road Alternative which is a second two lane, low-level fixed span bridge that would increase the current crossing capacity from two to four lanes.

We are requesting your comments on navigation, environmental and historic preservation concerns that you may have related to the DEIS. This includes suggesting analyses and methodologies for use in the DEIS or possible sources of data or information not included in the DEIS. Your comments will be considered in preparing the final Environmental Impact Statement.

The Coast Guard will hold a public meeting on the DEIS on Wednesday, August 7, 2013, from 4 p.m. to 6:30 p.m. at the Manatee County Civic Center (also known as the Bradenton Area Convention Center), 1 Haben Blvd., Palmetto, Florida 34221. The purpose of this meeting is to consider an application by Manatee County for Coast Guard approval of the location and plans of a proposed two-lane fixed, highway bridge across the Manatee River, mile 15.0, at Parrish, Manatee County, FL. All interested parties may present data, views and comments, orally or in writing, concerning the impact of the proposed bridge project on navigation and the human environment.

The public meeting will be informal. A representative of the Coast Guard will preside, make a brief opening statement and announce the procedure to be followed at the meeting. Attendees who request an opportunity to present oral comments at a public meeting must sign up to speak at the meeting site at the designated time of the meeting. Speakers will be called in the order of receipt of the request. Attendees at the meeting, who wish to present testimony, and have not previously made a request to do so, will follow those having submitted a request, as time permits. All oral presentations will be limited to three minutes. The public meeting may end early if all present wishing to speak have done so before the meeting is announced as adjourned. Any oral comments provided at the meeting will be transcribed and placed into the docket by the Coast Guard. Written comments and related material may also be submitted to Coast Guard personnel specified at that meeting for placement into the docket by the Coast Guard.
