Bureau of Industry and Security

Emerging Technology and Research Advisory Committee (ETRAC): Notice of Recruitment of Private-Sector Members

The Bureau of Industry and Security (BIS) is announcing a recruitment for new candidates to serve on the Emerging Technology and Research Advisory Committee (ETRAC) to advise the Department and other agency officials on: (i) The identification of emerging technologies and research and development activities that may be of interest from a dual-use perspective; (ii) the prioritization of new and existing controls to determine which are of greatest impact; (iii) the potential impact of dual-use export control requirements on research activities; and (iv) the threat to national security posed by unauthorized export technologies.

BIS will consider resumes from accomplished individuals with scientific and technical training actively engaged in research and technology development in industrial and university settings across all fields. The purpose of this recruitment is to fill current and future vacancies on the committee.

SUPPLEMENTARY INFORMATION: The Emerging Technology and Research Advisory Committee (ETRAC) serves as a technical advisory committee to the Bureau of Industry and Security (BIS) since September 2008. It operates under the terms of section 5(h) of the Export Administration Act of 1979, as amended (EAA), 50 U.S.C. 1701-1707 (2007), and the Federal Advisory Committee Act (FACA) (5 U.S.C. app. 2 (2005). ETRAC is an important vehicle for gathering necessary data as part of the Department's efforts to ensure that export controls continue to apply to sensitive items and keep pace with technological and research innovation without stifling U.S. competitiveness.

BIS's decision to establish the ETRAC drew on three sources: Public comments submitted to BIS in 2007 regarding the Commerce Control List (CCL); the report issued by the Deemed Export Advisory Committee (DEAC), a Federal advisory committee charged with making recommendations to the Secretary regarding BIS's deemed export policy; and a Presidential directive calling for BIS to regularly reassess and update the CCL.
