

sexual assault/sexual harassment (SASH) response and/or reporting process and comply with procedures set up to effectively manage National Oceanic and Atmospheric Administration (NOAA), Workplace Violence Prevention and Response (WVPR). Under 33 U.S.C. 894, NOAA is required to establish a mechanism by which sexual assault and sexual harassment can be reported on a Restricted and Unrestricted basis. Further, Congress directs NOAA to reference Department of Defense (DoD) policy and procedures in the standup of our SASH response program. WVPR requires various Intake forms to document a victim's election of a Restricted or Unrestricted Report of sexual assault or sexual harassment, as well as document that the details of each reporting option have been properly communicated with the victim. WVPR has modeled its forms after the DoD sexual assault/sexual harassment forms in accordance with guidance by Congress. NOAA may also use this collection to survey federal employees, contractors, affiliates, interns, volunteers, or other individuals who work in or visit NOAA-occupied facilities, vessels, or aircraft to determine their perceptions of incidents of SASH, pursuant to NOAA Administrative Order (NAO) 202–1106, Section 5.01e.

II. Method of Collection

Information on this form will be collected using a paper format or electronically and requires the victim's signature either by ink pen or CAC.

III. Data

OMB Control Number: 0648–XXXX.

Form Number(s): None.

Type of Review: Regular submission, new information collection.

Affected Public: Individuals employed by NOAA including affiliates and contractors.

Estimated Number of Respondents: 500.

Estimated Time per Response: 60 minutes.

Estimated Total Annual Burden Hours: 500.

Estimated Total Annual Cost to Public: \$0.

Respondent's Obligation: Voluntary.

Legal Authority: 33 U.S.C. 894.

IV. Request for Comments

We are soliciting public comments to permit the Department/Bureau to: (a) Evaluate whether the proposed information collection is necessary for the proper functions of the Department, including whether the information will

have practical utility; (b) Evaluate the accuracy of our estimate of the time and cost burden for this proposed collection, including the validity of the methodology and assumptions used; (c) Evaluate ways to enhance the quality, utility, and clarity of the information to be collected; and (d) Minimize the reporting burden on those who are to respond, including the use of automated collection techniques or other forms of information technology.

Comments that you submit in response to this notice are a matter of public record. We will include or summarize each comment in our request to OMB to approve this ICR. Before including your address, phone number, email address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you may ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.

Sheleen Dumas,

Department PRA Clearance Officer, Office of the Chief Information Officer, Commerce Department.

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

Agency Information Collection Activities; Submission to the Office of Management and Budget (OMB) for Review and Approval; Comment Request; Pribilof Islands, Taking for Subsistence Purposes

The Department of Commerce will submit the following information collection request to the Office of Management and Budget (OMB) for review and clearance in accordance with the Paperwork Reduction Act of 1995, on or after the date of publication of this notice. We invite the general public and other Federal agencies to comment on proposed, and continuing information collections, which helps us assess the impact of our information collection requirements and minimize the public's reporting burden. Public comments were previously requested via the **Federal Register** on August 10, 2022 (87 FR 48648) during a 60-day comment period. This notice allows for an additional 30 days for public comments.

Agency: National Oceanic & Atmospheric Administration (NOAA), Commerce.

Title: Pribilof Islands, Taking for Subsistence Purposes.

OMB Control Number: 0648–0699.

Form Number(s): None.

Type of Request: Regular submission (extension of a current information collection).

Number of Respondents: 2.

Average Hours per Response:

Subsistence harvest and hunt reports submitted via email estimated to take 40 hours per response for each respondent. The St. George Island Traditional Council submits two reports annually and the Aleut Community of St. Paul Island submits three reports annually.

Total Annual Burden Hours: 200.

Needs and Uses: The subsistence use of northern fur seals is cooperatively managed by the National Oceanic and Atmospheric Administration's (NOAA) National Marine Fisheries Service (NMFS) and the Tribal Governments of St. Paul and St. George Islands under § 119 of the Marine Mammal Protection Act, 16 U.S.C. 1388 (MMPA) and governed by regulations found in 50 CFR part 216 subpart F, Taking for Subsistence Purposes under the Fur Seal Act (16 U.S.C. 1155). The regulations, laws, and cooperative agreements are focused on conserving northern fur seals through cooperative effort and consultation regarding effective management of human activities related to the subsistence harvests of northern fur seals and Steller sea lions. In 2014, NMFS obtained a collection of information control number (79 FR 65327; November 4, 2014), reviewed the control number in 2017 (82 FR 51218; November 3, 2017), updated the control number in 2019 (84 FR 52372; October 2, 2019, and corrected in 2020 (85 FR 15948; March 20, 2020).

This an information collection for the annual subsistence use male northern fur seals by Alaska Natives (Pribilovians) residing in the communities of St. Paul and St. George, Alaska (Pribilof Islands) under 50 CFR 216 part 216 subpart F. NMFS established regulations regarding the maximum levels for the annual subsistence needs of the Pribilovians after direct consultation with the Tribal Governments of St. Paul and St. George Islands in Alaska and their respective local Native corporations (Tanadgusix and Tanaq). NMFS regulation creates independent northern fur seal subsistence seasons on St. Paul and St. George islands to include male fur seals less than 7 years old, limits on accidental mortality of female northern

fur seals, monitoring and reporting through co-management processes established under their respective cooperative agreements. The regulations at 50 CFR 216.72 state that Pribilofians are responsible for reporting their subsistence needs and actual level of subsistence take. NMFS receives electronic copies of the northern fur seal subsistence use reports from the tribal governments of St. Paul and St. George annually. NMFS subsequently posts these reports online (<https://www.fisheries.noaa.gov/alaska/marine-mammal-protection/northern-fur-seal-subsistence-harvest-estimates-and-reports>) and includes the relevant data in the annual Alaska Marine Mammal Stock Assessment Report. The only change requested is the changing of the title of the information collection to Pribilof Islands, Taking for Subsistence Purposes.

Affected Public: Individuals or households, and State, Local or Tribal Government.

Frequency: Annual.

Respondent's Obligation: Required to Obtain or Retain Benefits.

Legal Authority: Fur Seal Act (16 U.S.C. 1155).

This information collection request may be viewed at www.reginfo.gov. Follow the instructions to view the Department of Commerce collections currently under review by OMB.

Written comments and recommendations for the proposed information collection should be submitted within 30 days of the publication of this notice on the following website www.reginfo.gov/public/do/PRAMain. Find this particular information collection by selecting "Currently under 30-day Review—Open for Public Comments" or by using the search function and entering either the title of the collection or the OMB Control Number 0648–0699.

BILLING CODE 3510–22–P

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

Agency Information Collection Activities; Submission to the Office of Management and Budget (OMB) for Review and Approval; Comment Request; Resident Perceptions of Offshore Wind Energy Development Off the Oregon Coast

The Department of Commerce will submit the following information collection request to the Office of Management and Budget (OMB) for review and clearance in accordance with the Paperwork Reduction Act of 1995, on or after the date of publication of this notice. We invite the general public and other Federal agencies to comment on proposed, and continuing information collections, which helps us assess the impact of our information collection requirements and minimize the public's reporting burden. Public comments were previously requested via the **Federal Register** on October 3, 2022 (87 FR 59781) during a 60-day comment period. This notice allows for an additional 30 days for public comments.

Agency: National Oceanic & Atmospheric Administration (NOAA), Commerce.

Title: Resident Perceptions of Offshore Wind Energy Development off the Oregon Coast.

OMB Control Number: 0648–0744.

Form Number(s): None.

Type of Request: Reinstatement with change.

Number of Respondents: 4,617.

Average Hours per Response: Focus groups: 1 hour; Questionnaire: 20 minutes.

Total Annual Burden Hours: 1,571.

Needs and Uses: Pursuant to E.O. 14057 (Executive Order on Catalyzing Clean Energy Industries and Jobs Through Federal Sustainability), the Outer Continental Shelf Land Act, the National Environmental Policy Act, and the Coastal Zone Management Act, this request is for a reinstatement of an information collection with change. This information collection will focus on a different geographical location (the coast of Oregon) and include focus groups, which will help guide any revisions necessary to the survey instrument.

The BOEM Pacific OCS Region has an active Renewable Energy Program and is currently processing wind and wave energy lease requests. Due to the relatively steep continental slope and deep water off the West Coast, different

types of offshore renewable energy technologies have been proposed for the Pacific Region than for the Atlantic Region. Outside of official public engagement forums, preferences about offshore wind energy development generally remain unknown for members of the public, as well as for groups who may not perceive themselves as stakeholders. Failure to gain the perspective of communities regarding potential benefits or impacts is problematic, particularly when latent stakeholders to local projects emerge late in the planning process.

The National Ocean Service (NOS) proposes to collect data on the opinions, values, and attitudes of Oregon Coast residents relative to offshore wind energy development. Respondents (age 18 years and older) will be randomly sampled from households in seven coastal counties. This information will be used by BOEM, NOAA, and others to understand what is important to communities; understand how differing values and perceptions across communities influence local receptivity to proposed development; and improve communication efforts targeted to residents, enabling agencies to more effectively and efficiently direct outreach and community inclusion activities. Additionally, NOAA has a vested interest in offshore wind energy development, from many perspectives, including as it relates to the resilience, well-being, and sustainability of coastal communities.

Affected Public: Individuals or households.

Frequency: This is a one-time information collection for this region, although the collection may be deployed to other regions in the future.

Respondent's Obligation: Voluntary.

Legal Authority: NOAA's Programmatic Authority—Integrated Coastal and Ocean Observation System Act (33 U.S.C. 3601 *et seq.*); BOEM's Programmatic Authority—Outer Continental Shelf Lands Act (43 U.S.C. 1346).
