SUPPLEMENTARY INFORMATION: A proposed rule was published in the **Federal Register** on April 6, 2018 (83 FR 14771). That rule proposed to amend the Mango Promotion, Research, and Information Order to include frozen mangos.

The rule also announced the Agricultural Marketing Service's intent to request approval from OMB of new information collection requirements and recordkeeping requirements for the frozen mango industry. Information collection and recordkeeping requirements for the fresh mango program (part 1206) have previously been approved under OMB control nos. 0581–0093 and 0505–0001. Upon approval of this action and associated burden, AMS would submit a Justification for Change to merge this new burden for frozen mangos into the currently approved collection for fresh mangos.

USDA is reopening and extending the comment period an additional 30 days to allow interested persons more time to review the proposed rule, perform an analysis, and submit written comments.

Airworthiness Directives; Bombardier, Inc., Airplanes

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice of proposed rulemaking (NPRM).

SUMMARY: We propose to adopt a new airworthiness directive (AD) for certain Bombardier, Inc., Model CL–600–2C10 (Regional Jet Series 700, 701 & 702) airplanes, Model CL–600–2D15 (Regional Jet Series 705) airplanes, Model CL–600–2D24 (Regional Jet Series 900) airplanes, and Model CL–600–2E25 (Regional Jet Series 1000) airplanes. This proposed AD was prompted by reports of a fractured main landing gear (MLG) orifice support tube (OST). This proposed AD would require replacing the MLG OST, and revising the maintenance or inspection program, as applicable, to incorporate new or more restrictive maintenance requirements and airworthiness limitations. We are proposing this AD to address the unsafe condition on these products.

DATES: We must receive comments on this proposed AD by August 27, 2018.
