SUPPLEMENTARY INFORMATION:

Summary of Information Collection

The Uniformed and Overseas Citizens Absentee Voting Act (UOCAVA)

requires the States to allow Uniformed Services personnel, their family members, and overseas citizens to use absentee registration procedures and to vote by absentee ballot in general, special, primary, and runoff elections for Federal offices. The Act covers members of the Uniformed Services and the merchant marine to include the commissioned corps of the National Oceanic and Atmospheric Administration and Public Health Service and their eligible dependents, Federal civilian employees overseas, and overseas U.S. citizens not affiliated with the Federal Government. Local Election Officials (LEO) process voter registration and absentee ballot applications, send absentee ballots to voters, and receive and process the voted ballots in counties, cities, parishes, townships and other jurisdictions within the U.S. LEOs, independently and in relation to their respective State election officials, are often one of the most important pieces in the absentee voting process for UOCAVA citizens. The 2013 FVAP Ethnographies, Focus Groups, and Surveys research project will examine attitudes, experiences, and behaviors of LEOs and UOCAVA voters around the UOCAVA voting process. The research will explore the deficiencies, risks, and pitfalls that serve as key barriers to UOCAVA voting success and will provide insights and recommendations for potential changes to address obstacles in the UOCAVA voting process. The study involves both qualitative and quantitative data collection methods. The research findings will be used for overall program evaluation, management and improvement.
