Questions To Inform Development of the Implementation Plan

Through this RFI, the National Ocean Mapping, Exploration, and Characterization Council seeks responses to the following questions to

inform development of an Implementation Plan for the National Strategy on Ocean Mapping, Exploration, and Characterization that is responsive to cross-sector requirements and engages all interested sectors in the implementation.

1. What does successful implementation look like to your organization, sector, or interest group? How do you anticipate your organization or sector will participate in the NOME Council implementation?

2. What specific implementation actions would be of value to your organization/sector?

3. How should the Council appropriately engage your organization and/or sector in developing an implementation plan? How should we engage your organization to get ongoing feedback throughout implementation?

4. What activities is your organization currently undertaking, has recently undertaken, or is planning that may support or benefit from NOME Council implementation? What processes and connections would be required to realize those opportunities?

5. What publicly accessible databases and archives does your organization offer that may house data relevant to NOME Council?

6. Who are the additional partners that are needed to effectively plan and execute a successful NOME Council program in the future, as well as those that can help disseminate information from this work to various audiences? How could Federal agencies more effectively engage these partners? If there are barriers to this cooperation, please describe. Please do not only limit your responses to organizations that are traditionally involved in this work, but also think how we can engage other groups that can make important contributions.

Dated: September 24, 2020.
