

(Chapter 5, Technology for Access and Function): Either (1) Conduct a multi-center evaluation of the impact of selected innovations in technology and rehabilitation engineering on service delivery; or (2) assess the impact of selected innovations in technology and rehabilitation engineering on outcomes such as function, independence, and employment.

(Chapter 6, Independent Living and Community Integration): Measure the environmental factors influencing independence and community integration, employment function, and health maintenance.

(Chapter 7, Associated): Either (1) Evaluate methods to build the capacity for rehabilitation services for individuals with SCI; or (2) Investigate the impact of national telecommunications and information policy on the access of persons with SCI to related education, work, and other opportunities.

(2) Disseminate research and demonstration findings to SCI centers, rehabilitation practitioners, researchers, individuals with SCI and their families or other authorized representatives, and other public and private organizations involved in SCI care and rehabilitation.

In carrying out these purposes, the project must:

- Include two or more centers from the MSCI Centers Program.
- Incorporate culturally appropriate methods of community outreach and education in areas such as health and wellness, housing, transportation, recreation, employment, and other community activities for individuals with diverse backgrounds with SCI;

Priority 2: Data Center

The Assistant Secretary will establish a data center to manage and facilitate the use of information on individuals with SCI collected by the MSCI Centers. The Data Center must:

(1) Establish a hardware and software system to securely maintain data from the MSCI Centers. The system must maintain individual confidentiality and provide for data entry, quality control, data retrieval, and data analysis.

(2) Train and provide technical assistance to the MSCI Centers on proper data collection methods, data entry, and utilization of the database.

(3) Establish methods and procedures to communicate with NIDRR and the directors of the MSCI Centers regarding submissions to the database and the quality and utility of data elements.

(4) Demonstrate the capacity to conduct, facilitate, and disseminate research utilizing the database in

collaboration with the dissemination center.

(5) Develop and facilitate methods for linking the data from the MSCI Centers with other databases to advance knowledge regarding SCI.

In carrying out these purposes the center must:

- Incorporate culturally appropriate methods of data collection and dissemination, including culturally sensitive measurement approaches; and
- Demonstrate the capacity to provide technical assistance to the MSCI Centers and to other related projects regarding database development and maintenance.

Priority 3: Dissemination Center

The Assistant Secretary will establish a center for the purpose of collecting, maintaining and disseminating academic and consumer education materials produced by the MSCI Centers and the Collaborative Research Projects in SCI. The Dissemination Center must:

(1) Establish, maintain, and disseminate a bibliography of the academic publications of the MSCI Centers and the Collaborative Research Projects in SCI.

(2) Establish a system to collect, maintain, and disseminate consumer and professional education materials produced by the MSCI Centers and the Collaborative Research Projects in SCI.

(3) Establish collaborative relationships with NIDRR supported dissemination centers, NARIC (www.naric.com) and NCDDR (www.ncddr.org).

In carrying out these purposes, the project must:

- Incorporate culturally appropriate methods of community outreach and education in areas such as health and wellness, housing, transportation, recreation, employment, and other community activities for individuals with diverse backgrounds with SCI; and
- Establish procedures to collaborate with the SCI Data Center and other information sources supported by public or private agencies to facilitate dissemination of information regarding SCI research.

Additional Selection Criterion

We will use the selection criteria in 34 CFR 350.54 to evaluate applications under this program. The maximum score for all the criteria is 100 points; however, we will also use the following criterion so that up to an additional ten points may be earned by an applicant for a total possible score of 110 points.

Up to ten (10) points based on the extent to which an application includes effective strategies for employing and advancing in employment qualified

individuals with disabilities in projects awarded under this absolute priority. In determining the effectiveness of those strategies, we will consider the applicant's prior success, as described in the application, in employing and advancing in employment qualified individuals with disabilities.

Thus for purposes of this competitive preference, applicants can be awarded up to a total of 10 points in addition to those awarded under the published selection criteria for this priority. That is, an applicant meeting this competitive preference could earn a maximum total of 110 points.

Additional Selection Criterion

We will use the selection criteria in 34 CFR 350.54 to evaluate applications under these programs. The maximum score for all the criteria is 100 points; however, we will also use the following criterion so that up to an additional 10 points may be earned by an applicant for a total possible score of 110 points.

Up to 10 points based on the extent to which an application includes effective strategies for employing and advancing in employment qualified individuals with disabilities in projects awarded under these absolute priorities. In determining the effectiveness of those strategies, we will consider the applicant's prior success, as described in the application, in employing and advancing in employment qualified individuals with disabilities. Thus, for purposes of this competitive preference, applicants can be awarded up to a total of 10 points in addition to those awarded under the published selection criteria for these priorities. That is, an applicant meeting this competitive preference could earn a maximum total of 110 points.

Instructions for Application Narrative

We will reject without consideration or evaluation any application that proposes a project funding level that exceeds the stated maximum award amount per year (See 34 CFR 75.104(b)).

Appendix—Application Forms and Instructions

Applicants are advised to reproduce and complete the application forms in this section. Applicants are required to submit an original and two copies of each application as provided in this section. However, applicants are encouraged to submit an original and seven copies of each application in order to facilitate the peer review process and minimize copying errors.

Frequent Questions

1. Can I get an extension of the due date?

No! On rare occasions the Department of Education may extend a closing date for all applicants. If that occurs, a notice of the

revised due date is published in the **Federal Register**. However, there are no extensions or exceptions to the due date made for individual applicants.

2. What should be included in the application?

The application should include a project narrative, vitae of key personnel, and a budget, as well as the Assurances forms included in this package. Vitae of staff or consultants should include the individual's title and role in the proposed project, and other information that is specifically pertinent to this proposed project. The budgets for both the first year and all subsequent project years should be included.

If collaboration with another organization is involved in the proposed activity, the application should include assurances of participation by the other parties, including written agreements or assurances of cooperation. It is not *useful* to include general letters of support or endorsement in the application.

If the applicant proposes to use unique tests or other measurement instruments that are not widely known in the field, it would be helpful to include the instrument in the application.

Many applications contain voluminous appendices that are not helpful and in many cases cannot even be mailed to the reviewers. It is generally not helpful to include such things as brochures, general capability statements of collaborating organizations, maps, copies of publications, or descriptions of other projects completed by the applicant.

3. What format should be used for the application?

NIDRR generally advises applicants that they may organize the application to follow the selection criteria that will be used. The specific review criteria vary according to the specific program, and are contained in this Consolidated Application Package.

4. May I submit applications to more than one NIDRR program competition or more than one application to a program?

Yes, you may submit applications to any program for which they are responsive to the program requirements. You may submit the same application to as many competitions as you believe appropriate. You may also submit more than one application in any given competition.

5. What is the allowable indirect cost rate?

The limits on indirect costs vary according to the program and the type of application. An applicant for an RRTC is limited to an indirect rate of 15 percent. An applicant for a Disability and Rehabilitation Research Project should limit indirect charges to the organization's approved indirect cost rate. If the organization does not have an approved indirect cost rate, the application should include an estimated actual rate.

6. Can profitmaking businesses apply for grants?

Yes. However, for-profit organizations will not be able to collect a fee or profit on the grant, and in some programs will be required to share in the costs of the project.

7. Can individuals apply for grants?

No. Only organizations are eligible to apply for *grants* under NIDRR programs. However, individuals are the only entities eligible to apply for fellowships.

8. Can NIDRR staff advise me whether my project is of interest to NIDRR or likely to be funded?

No. NIDRR staff can advise you of the requirements of the program in which you propose to submit your application. However, staff cannot advise you of whether your subject area or proposed approach is likely to receive approval.

9. How do I assure that my application will be referred to the most appropriate panel for review?

Applicants should be sure that their applications are referred to the correct competition by clearly including the competition title and CFDA number, including alphabetical code, on the ED 424, and including a project title that describes the project.

10. How soon after submitting my application can I find out if it will be funded?

The time from closing date to grant award date varies from program to program. Generally speaking, NIDRR endeavors to have awards made within five to six months of the closing date. Unsuccessful applicants generally will be notified within that time frame as well. For the purpose of estimating a project start date, the applicant should estimate approximately six months from the closing date, but no later than the following September 30.

11. Can I call NIDRR to find out if my application is being funded?

No. When NIDRR is able to release information on the status of grant applications, it will notify applicants by letter. The results of the peer review cannot be released except through this formal notification.

12. If my application is successful, can I assume I will get the requested budget amount in subsequent years?

No. Funding in subsequent years is subject to availability of funds and project performance.

13. Will all approved applications be funded?

No. It often happens that the peer review panels approve for funding more applications than NIDRR can fund within available resources. Applicants who are approved but not funded are encouraged to consider submitting similar applications in future competitions.

PROTECTION OF HUMAN SUBJECTS IN RESEARCH (Attachment to ED 424)

I. Instructions to Applicants about the Narrative Information that Must be Provided if Research Activities Involving Human Subjects are Planned

If you marked item 12 on the application "Yes" and designated exemptions in 12a, **(all research activities are exempt)**, provide sufficient information in the application to allow a determination that the designated exemptions are appropriate. Research involving human subjects that is exempt from the regulations is discussed under **II.B. "Exemptions,"** below. The Narrative must be succinct. **Provide this information in an "Item 12/Protection of Human Subjects Attachment" and insert this attachment immediately following the ED 424 face page.**

If you marked "Yes" to item 12 on the face page, and designated no exemptions from the regulations **(some or all of the research activities are nonexempt)**, address the following six points for each nonexempt activity. In addition, if research involving human subjects will take place at collaborating site(s) or other performance site(s), provide this information before discussing the six points. Although no specific page limitation applies to this section of the application, be succinct. Provide the six-point narrative and discussion of other performance sites in an **"Item 12/Protection of Human Subjects Attachment" and insert this attachment immediately following the ED 424 face page.**

(1) Provide a detailed description of the proposed involvement of human subjects. Describe the characteristics of the subject population, including their anticipated number, age range, and health status. Identify the criteria for inclusion or exclusion of any subpopulation. Explain the rationale for the involvement of special classes of subjects, such as children, children with disabilities, adults with disabilities, persons with mental disabilities, pregnant women, prisoners, institutionalized individuals, or others who are likely to be vulnerable.

(2) Identify the sources of research material obtained from individually identifiable living human subjects in the form of specimens, records, or data. Indicate whether the material or data will be obtained specifically for research purposes or whether use will be made of existing specimens, records, or data.

(3) Describe plans for the recruitment of subjects and the consent procedures to be followed. Include the cir-

cumstances under which consent will be sought and obtained, who will seek it, the nature of the information to be provided to prospective subjects, and the method of documenting consent. State if the Institutional Review Board (IRB) has authorized a modification or waiver of the elements of consent or the requirement for documentation of consent.

(4) Describe potential risks (physical, psychological, social, legal, or other) and assess their likelihood and seriousness. Where appropriate, describe alternative treatments and procedures that might be advantageous to the subjects.

(5) Describe the procedures for protecting against or minimizing potential risks, including risks to confidentiality, and assess their likely effectiveness. Where appropriate, discuss provisions for ensuring necessary medical or professional intervention in the event of adverse effects to the subjects. Also, where appropriate, describe the provisions for monitoring the data collected to ensure the safety of the subjects.

(6) Discuss why the risks to subjects are reasonable in relation to the anticipated benefits to subjects and in relation to the importance of the knowledge that may reasonably be expected to result.

II. Information on Research Activities Involving Human Subjects

A. Definitions.

A research activity involves human subjects if the activity is research, as defined in the Department's regulations, and the research activity will involve use of human subjects, as defined in the regulations.

—Is it a research activity?

The ED Regulations for the Protection of Human Subjects, Title 34, Code of Federal Regulations, Part 97, define research as "a systematic investigation, including research development, testing and evaluation, designed to develop or contribute to generalizable knowledge." *If an activity follows a deliberate plan whose purpose is to develop or contribute to generalizable knowledge, such as an exploratory study or the collection of data to test a hypothesis, it is research.* Activities which meet this definition constitute research whether or not they are conducted or supported under a program which is considered research for other purposes. For example, some demonstration and service programs may include research activities.

—Is it a human subject?

The regulations define human subject as “a living individual about whom an investigator (whether professional or student) conducting research obtains (1) data through intervention or interaction with the individual, or (2) identifiable private information.” (1) *If an activity involves obtaining information about a living person by manipulating that person or that person’s environment, as might occur when a new instructional technique is tested, or by communicating or interacting with the individual, as occurs with surveys and interviews, the definition of human subject is met.* (2) *If an activity involves obtaining private information about a living person in such a way that the information can be linked to that individual (the identity of the subject is or may be readily determined by the investigator or associated with the information), the definition of human subject is met.* [Private information includes information about behavior that occurs in a context in which an individual can reasonably expect that no observation or recording is taking place, and information which has been provided for specific purposes by an individual and which the individual can reasonably expect will not be made public (for example, a school health record).]

B. Exemptions.

Research activities in which the only involvement of human subjects will be in one or more of the following six categories of **exemptions** are not covered by the regulations:

- (1) Research conducted in established or commonly accepted educational settings, involving normal educational practices, such as (a) research on regular and special education instructional strategies, or (b) research on the effectiveness of or the comparison among instructional techniques, curricula, or classroom management methods.
- (2) Research involving the use of educational tests (cognitive, diagnostic, aptitude, achievement), survey procedures, interview procedures or observation of public behavior, unless: (a) information obtained is recorded in such a manner that human subjects can be identified, directly or through identifiers linked to the subjects; and (b) any disclosure of the human subjects’ responses outside the research could reasonably place the subjects at risk of criminal or civil liability or be damaging to the subjects’ financial standing, employability, or reputation. *If the subjects are children, this exemption applies only to research involving educational tests or observations of pub-*

lic behavior when the investigator(s) do not participate in the activities being observed. [Children are defined as persons who have not attained the legal age for consent to treatments or procedures involved in the research, under the applicable law or jurisdiction in which the research will be conducted.]

- (3) Research involving the use of educational tests (cognitive, diagnostic, aptitude, achievement), survey procedures, interview procedures or observation of public behavior that is not exempt under section (2) above, if the human subjects are elected or appointed public officials or candidates for public office; or federal statute(s) require(s) without exception that the confidentiality of the personally identifiable information will be maintained throughout the research and thereafter.

- (4) Research involving the collection or study of existing data, documents, records, pathological specimens, or diagnostic specimens, if these sources are publicly available or if the information is recorded by the investigator in a manner that subjects cannot be identified, directly or through identifiers linked to the subjects.

- (5) Research and demonstration projects which are conducted by or subject to the approval of department or agency heads, and which are designed to study, evaluate, or otherwise examine: (a) public benefit or service programs; (b) procedures for obtaining benefits or services under those programs; (c) possible changes in or alternatives to those programs or procedures; or (d) possible changes in methods or levels of payment for benefits or services under those programs.

- (6) Taste and food quality evaluation and consumer acceptance studies, (a) if wholesome foods without additives are consumed or (b) if a food is consumed that contains a food ingredient at or below the level and for a use found to be safe, or agricultural chemical or environmental contaminant at or below the level found to be safe, by the Food and Drug Administration or approved by the Environmental Protection Agency or the Food Safety and Inspection Service of the U.S. Department of Agriculture.

Copies of the Department of Education’s Regulations for the Protection of Human Subjects, 34 CFR Part 97 and other pertinent materials on the protection of human subjects in research are available from the Grants Policy and Oversight Staff (GPOS) Office of the Chief Financial and Chief Information Officer, U.S. Department of Education, Washington, D.C., telephone: (202) 708-8263, and on the U.S. Department of Education’s Protection of Human Subjects in Research Web Site at <http://ocfo.ed.gov/humansub.htm>.

BILLING CODE 4000-01-C

DEPARTMENT OF ENERGY**National Energy Technology Laboratory; Notice of Availability of a Financial Assistance Solicitation**

AGENCY: National Energy Technology Laboratory (NETL), Department of Energy (DOE).

ACTION: Notice of Availability of a Financial Assistance Solicitation.

SUMMARY: Notice is hereby given of the intent to issue Financial Assistance Solicitation No. DE-PS26-01NT40869 entitled "Methane Hydrates." This solicitation supports the Department of Energy's Strategic Plan to develop the knowledge base for assessing the vast deposits of methane hydrates and to promote the technology for their safe and effective recovery. The solicitation is being issued by the Natural Gas Hydrate Program which is part of NETL's Strategic Center for Natural Gas. This solicitation will focus on gas hydrates in the Gulf of Mexico and the North Slope of Alaska. These are the two principal regions of industry interest, primarily because they contain known occurrences of hydrates the existing infrastructure for drilling and production of conventional hydrocarbons.

DATES: The solicitation will be available on the DOE/NETL's Internet address at <http://www.netl.doe.gov/business> on or about January 12, 2001. Since DOE does not intend to issue a draft solicitation on the subject solicitation, prospective applicants are invited to e-mail any comments and/or questions associated with the "need" areas identified in this announcement. Please submit all comments/questions to Dona Sheehan via the Internet at sheehan@netl.doe.gov by COB on January 5, 2001.

FOR FURTHER INFORMATION CONTACT: Dona G. Sheehan, U.S. Department of Energy, National Energy Technology Laboratory, P.O. Box 10940, MS 921-107, Pittsburgh, PA 15236-0940, E-mail Address: sheehan@netl.doe.gov, Telephone Number: 421/386-5918.

SUPPLEMENTARY INFORMATION: The solicitation will request R&D proposals for work in the Gulf of Mexico that will result in information and technology that promotes: (1) Safe drilling and production operations for conventional hydrocarbons in hydrate-bearing areas, (2) a better understanding of seafloor stability issues related to gas hydrates, (3) improved methodologies for hydrate

resource characterization and (4) initiation of feasibility studies for producing methane from hydrates. Offerors should propose research that supports the needs of industry, as outlined in the "Gulf of Mexico Hydrates R&D Planning Workshop" report which is available on the web at www.netl.doe.gov/publications/proceedings/00/hydrates/00hydrate.html.

R&D proposals for work in the Alaskan North Slope will be requested that will result in information and technology leading to: (1) Improved imaging and characterization of the hydrate resource, (2) improved sampling and modeling techniques to develop hydrate reservoir information and (3) planning and feasibility analysis of production test well(s).

R&D proposals to evaluate the potential of utilizing synthetic hydrates to transport stranded gas to market, both in the offshore Gulf of Mexico and the onshore North Slope of Alaska, will also be requested.

DOE anticipates issuing financial assistance (Cooperative Agreement) awards. DOE reserves the right to support or not support, with or without discussions, any or all applications received in whole or in part, and to determine how many awards will be made.

Multiple awards are anticipated. Approximately \$15 million of DOE funding is planned over a 3 year period for this solicitation. National Laboratories may participate as team members; however, they may not act as the prime awardee and total funding to the Laboratory must not exceed 15% of the total project cost. If a project which includes National Laboratory participation is approved for funding, DOE intends to make an award to the applicant for its portion of the effort and to provide direct funding for the National Laboratories portion of the effort as a Field Work Proposal (FWP). DOE has determined that a minimum cost share of 20 percent of the total project cost is required for this solicitation. Details of the cost sharing requirement and the specific funding levels will be contained in the solicitation. The anticipated period of performance of the projects will range in duration from 12 months to 48 months.

Prospective applicants who would like to be notified as soon as the solicitation is available should register at <http://www.netl.doe.gov/business>. Provide your E-mail address and click on the "Oil & Gas" technology choice located under the heading "Fossil Energy." Once you subscribe, you will receive an announcement by E-mail that

the solicitation has been released to the public. Telephone requests, written requests, E-mail requests, or facsimile requests for a copy of the solicitation package will not be accepted and/or honored. Applications must be prepared and submitted in accordance with the instructions and forms contained in the solicitation. The actual solicitation document will allow for requests for explanation and/or interpretation.

Issued in Pittsburgh, PA on December 14, 2000.

DEPARTMENT OF ENERGY**Energy Information Administration****Agency Information Collection****Activities: Submission for Emergency OMB Review; Comment Request**

AGENCY: Energy Information Administration (EIA), Department of Energy (DOE).

ACTION: Agency information collection activities: Submission for Emergency OMB Review; comment request.

SUMMARY: The EIA has submitted the energy information collections listed at the end of this notice to the Office of Management and Budget (OMB) for emergency processing under section 3507(j)(1) of the Paperwork Reduction Act of 1995 (Pub. L. 104-13) (44 U.S.C. 3501 *et seq.*) by January 3, 2001. The reason for this emergency clearance request is that Congress has funded an EIA project in Fiscal Year 2001 to institute a bi-weekly survey of companies during the heating season to monitor interruptible natural gas contracts. For this project EIA is proposing three related information collections. Information will be collected from natural gas suppliers, petroleum product suppliers, and a sample of major energy consumers in the Northeast United States to assess energy activities, especially volumes of fuel switching between natural gas and petroleum fuels. Normal clearance procedures would prevent the timely collection of information during the 2000-2001 heating season.

DATES: Comments must be filed by January 2, 2001.

ADDRESSES: Send comments to the OMB Desk Officer for DOE, Office of Information and Regulatory Affairs, Office of Management and Budget, 726 Jackson Place, NW., Washington, DC.
