

Prior to arriving at its budget of \$89,090, the committee considered information from various sources, such as the committee's Executive Subcommittee. An alternative to this action would be to continue with the \$6.00 per ton assessment rate. However, an assessment rate of \$0.65 per ton of salable dried prunes and excess funds from the 2004–2005 crop year will provide enough income to fund the committee's reduced activities.

Therefore, the Executive Subcommittee and committee agreed that \$0.65 per ton of salable dried prunes is an acceptable assessment rate. The committee is authorized to use excess assessment funds from the 2004–05 crop year (currently estimated at \$21,165) for up to 5 months beyond the end of the crop year to meet 2003–04 crop year expenses. At the end of the 5 months, the committee either refunds or credits excess funds to handlers (§ 993.81(c)).

This action decreases the assessment obligation imposed on handlers. Assessments are applied uniformly on all handlers, and some of the costs may be passed on to producers. However, decreasing the assessment rate reduces the burden on handlers, and may reduce the burden on producers. In addition, the committee's meeting was widely publicized throughout the California dried prune industry and all interested persons were invited to attend the meeting and participate in committee deliberations on all issues. Like all committee meetings, the June 30, 2005, meeting was a public meeting and all entities, both large and small, were encouraged to express views on this issue. Finally, interested persons are invited to submit information on the regulatory and informational impacts of this action on small businesses.

This action imposes no additional reporting or recordkeeping requirements on either small or large California dried prune handlers. As with all Federal marketing order programs, reports and forms are periodically reviewed to reduce information requirements and duplication by industry and public sector agencies.

USDA has not identified any relevant Federal rules that duplicate, overlap, or conflict with this rule.

A small business guide on complying with fruit, vegetable, and specialty crop marketing agreements and orders may be viewed at: <http://www.ams.usda.gov/fv/moab/html>. Any questions about the compliance guide should be sent to Jay Guerber at the previously mentioned address in the **FOR FURTHER INFORMATION CONTACT** section.

After consideration of all relevant material presented, including the information and recommendation submitted by the committee and other available information, it is hereby found that this rule, as hereinafter set forth, will tend to effectuate the declared policy of the Act.

Pursuant to 5 U.S.C. 553, it is also found and determined upon good cause that it is impracticable, unnecessary, and contrary to the public interest to give preliminary notice prior to putting this rule into effect, and that good cause exists for not postponing the effective date of this rule until 60 days after publication in the **Federal Register** because: (1) The 2005–06 crop year began on August 1, 2005, and the marketing order requires that the rate of assessment for each crop year apply to all assessable prunes handled during such crop year; (2) the assessment rate is considerably lower than that which is currently in effect; and (3) handlers are aware of this action, which was unanimously recommended by the committee at a public meeting; and (4) this interim final rule provides a 60-day comment period, and all comments timely received will be considered prior to finalization of this rule.
