What Information Is EPA Particularly Interested in?

Pursuant to section 3506(c)(2)(A) of the PRA, EPA specifically solicits comments and information to enable it to:

(i) Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the Agency, including whether the information will have practical utility;

(ii) Evaluate the accuracy of the Agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;

(iii) Enhance the quality, utility, and clarity of the information to be collected; and

(iv) Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated electronic, mechanical, or other technological collection techniques or other forms of information technology, *e.g.*, permitting electronic submission of responses. In particular, EPA is requesting comments from very small businesses (those that employ less than 25) on examples of specific additional efforts that EPA could make to reduce the paperwork burden for very small businesses affected by this collection.

What Should I Consider When I Prepare My Comments for EPA?

You may find the following suggestions helpful for preparing your comments:

1. Explain your views as clearly as possible and provide specific examples.
2. Describe any assumptions that you used.
3. Provide copies of any technical information and/or data you used that support your views.
4. If you estimate potential burden or costs, explain how you arrived at the estimate that you provide.
5. Offer alternative ways to improve the collection activity.
6. Make sure to submit your comments by the deadline identified under DATES.
7. To ensure proper receipt by EPA, be sure to identify the docket ID number assigned to this action in the subject line on the first page of your response. You may also provide the name, date, and **Federal Register** citation.

What Information Collection Activity or ICR Does This Apply To?

Docket ID No. EPA-HQ-OA-2006-0074.

Affected entities: Entities potentially affected by this action are primarily individuals or households.

Title: Voluntary Customer Satisfaction Surveys.

ICR numbers: EPA ICR No. 1711.05, OMB Control No. 2090-0019.

ICR status: This ICR is currently scheduled to expire on June 30, 2006. An Agency may not conduct or sponsor, and a person is not required to respond to, a collection of information, unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations in title 40 of the CFR, after appearing in the **Federal Register** when approved, are listed in 40 CFR part 9, are displayed either by publication in the **Federal Register** or by other appropriate means, such as on the related collection instrument or form, if applicable. The display of OMB control numbers in certain EPA regulations is consolidated in 40 CFR part 9.

Abstract: EPA uses voluntary surveys to learn how satisfied EPA customers are with our services, and how we can improve services, products and processes. EPA surveys individuals who use services or could have. During the next three years, EPA plans up to 50 surveys, and will use results to target/measure service delivery improvements. By seeking renewal of the generic clearance for customer surveys, EPA will have the flexibility to gather the views of our customers to better

determine the extent to which our services, products and processes satisfy their needs or need to be improved. The generic clearance will speed the review and approval of customer surveys that solicit opinions from EPA customers on a voluntary basis, and do not involve "fact-finding" for the purposes of regulatory development or enforcement.

An Agency may conduct or sponsor, and a person is not required to respond to, a collection of information unless it has a currently valid OMB control number. The OMB control numbers for EPA's regulations are listed in 40 CFR part 9 and 48 CFR chapter 15.

Burden Statement: The annual public reporting and recordkeeping burden for this collection of information is estimated to average five minutes to two hours per response. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements which have subsequently changed; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

The ICR provides a detailed explanation of the Agency's estimate, which is only briefly summarized here:

Estimated total number of potential respondents: 8,640.

Frequency of response: On occasion.

Estimated total annual burden hours: 550 hours.

Estimated total annual costs: \$9,075. This includes an estimated burden cost of \$9,075 and an estimated cost of \$0 for capital investment or maintenance and operational costs.

What Is the Next Step in the Process for This ICR?

EPA will consider the comments received and amend the ICR as appropriate. The final ICR package will then be submitted to OMB for review and approval pursuant to 5 CFR 1320.12. At that time, EPA will issue another **Federal Register** notice pursuant to 5 CFR 1320.5(a)(1)(iv) to announce the submission of the ICR to OMB and the opportunity to submit additional comments to OMB. If you have any questions about this ICR or the

approval process, please contact the technical person listed under **FOR FURTHER INFORMATION CONTACT**.

Dated: January 31, 2006.

Director, Office of Environmental Policy Innovation, Office of Policy, Economics and Innovation, Office of the Administrator.

Establishment of Human Studies Review Board

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice; Establishment of Advisory Committee.

SUMMARY: As required by section 9(a)(2) of the Federal Advisory Committee Act, the United States Environmental Protection Agency (EPA or Agency) is giving notice that it is establishing the Human Studies Review Board (HSRB). The purpose of this Board is to provide advice and recommendations to EPA on issues related to the scientific and ethical review of human subjects research. EPA has determined that this advisory committee is in the public interest and will assist the Agency in performing its duties as directed in the 2006 EPA Appropriations Act. Further, the Agency included the establishment of such a Board in a final rule for protection of subjects in human research. The Agency is publishing, in a separate **Federal Register** notice, the final rule that strengthens the protections for subjects in human research, including a provision addressing the establishment and operation of the HSRB. In addition, in a report requested by the Agency, the National Academy of Sciences recommended that EPA establish such a Board. See: "Department of Interior, Environment, and Related Agencies Appropriations Act, 2006," Public Law 109-54; and "Intentional Human Dosing Studies for EPA Regulatory Purposes," Washington, DC: National Academy Press. 2004. Balanced membership will be driven by a number of considerations characterized by: inclusion of the necessary areas of technical expertise, different scientific perspectives within each technical discipline, and the collective breadth of experience needed to address the Agency's charge. Copies of the Committee Charter will be filed with the appropriate congressional committees and the Library of Congress.
