

§ 323.6 Exemption rules.

* * * * *

(j) System identifier: S240.28 DoD (Specific exemption).

(1) System name: Case Adjudication Tracking System (CATS)

(2) Exemption: (i) Investigatory material compiled solely for the purpose of determining suitability, eligibility, or qualifications for federal civilian employment, federal contracts, or access to classified information may be exempt pursuant to 5 U.S.C. 552a(k)(5), but only to the extent that such material would reveal the identity of a confidential source.

(ii) Therefore, portions of this system may be exempt pursuant to 5 U.S.C. 552a(k)(5) from the following subsections of 5 U.S.C. 552a(c)(3), (d)(1)(2)(3)(4), and (e)(1).

(3) Authority: 5 U.S.C. 552a(k)(5).

(4) Reasons: (i) From 5 U.S.C. 552a(c)(3) and (d)(1)(2)(3)(4), when access to accounting disclosures and access to or amendment of records would cause the identity of a confidential source to be revealed. Disclosure of the confidential source's identity not only will result in the Department breaching the express promise of confidentiality made to the source but it would impair the Department's future ability to compile investigatory material for the purpose of determining suitability, eligibility, or qualifications for Federal civilian employment, Federal contracts, or access to classified information. Unless sources may be assured that a promise of confidentiality will be honored, they will be less likely to provide information considered essential to the Department in making the required determinations.

(ii) From 5 U.S.C. 552a(e)(1), as in the collection of information for investigatory purposes, it is not always possible to determine the relevance and necessity of particular information in the early stages of the investigation. In some cases, it is only after the information is evaluated in light of other information that its relevance and necessity becomes clear. Such information permits more informed decision-making by the Department when making required suitability, eligibility, and qualification determinations.
