

burden for this provision is estimated to be 130 hours per year.

**Self-employment costs.** The regulations at 7 CFR 273.11(b) allow self-employment gross income to be reduced by the cost of producing such income. The regulations allow the State agencies, with approval from FNS, to establish the methodology for offsetting the costs of producing self-employment income, as long as the procedure does not increase program costs. State agencies may submit a request to FNS to use a method of producing a reasonable estimate of the costs of producing self-employment income in lieu of calculating the actual costs for each household with such income. Different methods may be proposed for different types of self-employment. The proposal shall include a description of the proposed method, the number and type of households and percent of the caseload affected, and documentation

indicating that the proposed procedure will not increase program costs. State agencies may collect this data from household case records or other sources that may be available.

**Estimates of burden:** We estimate that 10 State agencies will submit a request of this type each year for the next three years. It is estimated that these States will incur a one-time burden of at least 10 working hours gathering and analyzing data, developing the methodology, determining the cost implication, and submitting a request to FNS for a total burden of 100 hours annually (10 State agencies × 10 working hours = 100 burden hours). State agencies are not required to periodically review their approved methodologies. We do not anticipate that State agencies will voluntarily review their methodologies for change on a regular basis, thus burden is not being assessed for this purpose.

**Recordkeeping burden only:** Each State agency would be required to keep a record of the information gathered and submitted to FNS for the SUA and self-employment costs. We estimate this to be 7 minutes or .1169 hours per year for the 53 State agencies to equal a total of 6 burden hours annually (53 State agencies × .1169 hours = 6 hours annual burden).

**Summary of burden hours:**

**Affected Public:** State agencies and local governments administering the SNAP.

**Estimated Number of Respondents:** 53.

**Estimated Number of Responses Per Respondent:** 1.

**Estimated Number of Responses:** 115.

**Estimated Hours per Response:** 12.6.

**Estimated Total Annual Burden on Respondents:** 236.
