

St. Bernard and Plaquemines Parishes, Louisiana and a new 23,470 horsepower compressor station in St. Bernard Parish. In addition, Tennessee would replace certain facilities including a like-for-like replacement of two 10,410 horsepower units at its existing Compressor Station 527 located in Plaquemines Parish. SNG proposes to construct a new 22,220 horsepower compressor station in Clarke County, Mississippi, and three new meter stations in Clarke and Smith Counties, Mississippi and St. Bernard Parish, Louisiana. Additionally, Tennessee and SNG propose to construct, modify, or replace certain system auxiliary and appurtenant facilities under sections 2.55(a) and 2.55(b) of the Commission's regulations.²

Background

On March 20, 2020, the Commission issued a *Notice of Intent to Prepare an Environmental Assessment for the Proposed Evangeline Pass Expansion Project and Request for Comments on Environmental Issues* (NOI). The NOI was sent to affected landowners; federal, state, and local government agencies; elected officials; environmental and public interest groups; Native American tribes; other interested parties; and local libraries and newspapers. In response to the NOI, the Commission received comments from the Teamsters National Pipeline Labor Management Cooperation Trust in support of the Project. No additional comments have been received to date. All substantive comments will be addressed in the EA.

Additional Information

In order to receive notification of the issuance of the EA and to keep track of all formal issuances and submittals in specific dockets, the Commission offers a free service called eSubscription. This can reduce the amount of time you spend researching proceedings by automatically providing you with notification of these filings, document summaries, and direct links to the documents. Go to www.ferc.gov/docs-filing/esubscription.asp.

Additional information about the Project is available from the Commission's Office of External Affairs at (866) 208-FERC or on the FERC website (www.ferc.gov). Using the eLibrary link, select General Search from the eLibrary menu, enter the

selected date range and Docket Number excluding the last three digits (*i.e.*, CP20–50 or CP20–51), and follow the instructions. For assistance with access to eLibrary, the helpline can be reached at (866) 208–3676, TTY (202) 502–8659, or at FERCOnlineSupport@ferc.gov. The eLibrary link on the FERC website also provides access to the texts of formal documents issued by the Commission, such as orders, notices, and rule makings.

Federal Energy Regulatory Commission

[Docket Nos. CP11-1-000]

Pine Prairie Energy Center, LLC; Notice of Extension of Time Request

Take notice that on March 31, 2020, Pine Prairie Energy Center, LLC (Pine Prairie) requested that the Federal Energy Regulatory Commission (Commission) grant an extension of

time, until May 18, 2023, to construct and place into service two underground storage caverns (Cavern Nos. 6 and 7) which are part of the Phase III Expansion portion of its Pine Prairie Energy Center facilities. The Phase III Expansion Project was authorized on May 19, 2011 and the Pine Prairie Energy Center was originally authorized on November 23, 2004.

Pine Prairie was initially required to construct the Phase III Expansion facilities and place them into service by May 19, 2014. On April 22, 2014, the Office of Energy Projects, by delegated order, extended the deadline through May 18, 2017. On March 28, 2017 the Office of Energy Projects, by delegated order, extended the deadline through May 18, 2020. Pine Prairie now requests a three-year extension of this deadline through May 18, 2023. To date, Pine Prairie has not been able to construct Cavern Nos. 6 and 7 because the required approvals from the Louisiana Department of Natural Resources have been delayed.

This notice establishes a 15-calendar day intervention and comment period deadline. Any person wishing to comment on the extension motion may do so. No reply comments or answers will be considered. If you wish to obtain legal status by becoming a party to the proceedings for this request, you should, on or before the comment date stated below, file a motion to intervene in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 385.214 or 385.211) and the Regulations under the Natural Gas Act (18 CFR 157.10). However, only motions to intervene from entities that were party to the underlying proceeding will be accepted.

As a matter of practice, the Commission itself generally acts on requests for extensions of time to complete construction for NGA facilities when such requests are contested before order issuance. For those extension requests that are contested,¹ the Commission acting as a whole will aim to issue an order acting on the request within 45 days.² The Commission will address all arguments relating to whether the applicant has demonstrated there is good cause to grant the extension. The Commission will not consider arguments that re-litigate the

issuance of the certificate order, including whether the Commission properly found the project to be in the public convenience and necessity and whether the Commission's environmental analysis for the certificate complied with the National Environmental Policy Act.³ At the time a pipeline requests an extension of time, orders on certificates of public convenience and necessity are final and the Commission will not re-litigate their issuance. The OEP Director, or his or her designee, will act on all of those extension requests that are uncontested.
