

the following document identifier: File No. 881-1758.

FOR FURTHER INFORMATION CONTACT:

Amy Sloan or Ruth Johnson, (301)713-2289.

SUPPLEMENTARY INFORMATION: The subject permit is requested under the authority of the Marine Mammal Protection Act of 1972, as amended (U.S.C. 1361 *et seq.*), and the Regulations Governing the Taking and Importing of Marine Mammals (50 CFR part 216).

The applicant proposes to study growth, development, and health of harbor seals throughout their residency in the ASLC Rehabilitation Program. Researchers would compare growth and health parameters of rehabilitated seals to permanently captive seals undergoing long-term dietary studies at the ASLC and to seals captured and sampled in the wild during other permitted studies.

In addition to conducting standard rehabilitation practices, researchers would collect blood, fecal, and urine samples; collect body composition measurements using bioelectrical impedance and deuterium oxide, sodium bromide, Evan's blue dye, and nitrogen administration followed by post-administration blood samples; conduct assimilation efficiency experiments to study metabolic development; and collect blubber biopsies to study fatty acid composition and contaminant loads. The applicant has requested a 5-year permit.

In compliance with the National Environmental Policy Act of 1969 (42 U.S.C. 4321 *et seq.*), an initial determination has been made that the activity proposed is categorically excluded from the requirement to prepare an environmental assessment or environmental impact statement.

Concurrent with the publication of this notice in the **Federal Register**, NMFS is forwarding copies of this application to the Marine Mammal Commission and its Committee of Scientific Advisors.

Dated: December 23, 2004.

Jennifer Skidmore,

Acting Chief, Permits, Conservation and Education Division, Office of Protected Resources, National Marine Fisheries Service.

BILLING CODE 3510-22-S

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

[I.D. 121504H]

Endangered Species; File No. 1486

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Issuance of permit.

SUMMARY: Notice is hereby given that Harold M. Brundage, Environmental Research and Consulting, Inc., 112 Commons Court, Chadds Ford, Pennsylvania, 19317 has been issued a permit to take shortnose sturgeon (*Acipenser brevirostrum*) for purposes of scientific research.

ADDRESSES: The permit and related documents are available for review upon written request or by appointment in the following office(s):

Permits, Conservation and Education Division, Office of Protected Resources, NMFS, 1315 East-West Highway, Room 13705, Silver Spring, MD 20910; phone (301)713-2289; fax (301)427-2521; and,

Northeast Region, NMFS, One Blackburn Drive, Gloucester, MA 01930-2298; phone (978)281-9200; fax (978)281-9371.

FOR FURTHER INFORMATION CONTACT: Jennifer Jefferies or Amy Sloan, (301)713-2289.

SUPPLEMENTARY INFORMATION: On May 27, 2004, notice was published in the **Federal Register** (69 FR 30287) that a request for a scientific research permit to take shortnose sturgeon had been submitted by the above-named individual. The requested permit has been issued under the authority of the Endangered Species Act of 1973, as amended (ESA; 16 U.S.C. 1531 *et seq.*) and the regulations governing the taking, importing, and exporting of endangered and threatened species (50 CFR parts 222-226).

Mr. Brundage is authorized to sample and track shortnose sturgeon in the Delaware River. Annually, up to 1750 adult and juvenile fish will be taken via gill nets, trammel nets and trawls; measured; weighed; PIT and Floy T-bar tagged; and the fish will be subsequently released. A subset of 100 fish annually will also be tissue sampled. Finally, a subset of 30 adult and 30 juvenile fish annually will also be tagged with internal ultrasonic tags and tracked. This permit is authorized for five years.

In compliance with the National Environmental Policy Act of 1969 (42

U.S.C. 4321 *et seq.*), an environmental assessment was prepared analyzing the effects of the permitted activities. After a Finding of No Significant Impact, the determination was made that it was not necessary to prepare an environmental impact statement.

Issuance of this permit, as required by the ESA, was based on a finding that such permit (1) was applied for in good faith, (2) will not operate to the disadvantage of the endangered species which is the subject of this permit, and (3) is consistent with the purposes and policies set forth in section 2 of the ESA.

Dated: December 22, 2004.

Jennifer Skidmore,

Acting, Chief, Permits, Conservation and Education Division, Office of Protected Resources, National Marine Fisheries Service.

BILLING CODE 3510-22-S

COMMITTEE FOR THE IMPLEMENTATION OF TEXTILE AGREEMENTS

Solicitation of Public Comments on Request for Textile and Apparel Safeguard Action on Imports from China

December 21, 2004.

AGENCY: The Committee for the Implementation of Textile Agreements (the Committee)

ACTION: Solicitation of public comments concerning a request for safeguard action on imports from China of brassieres and other body supporting garments (Category 349/649).

SUMMARY: The Committee has received a request from the National Council of Textile Organizations, the National Textile Association, the American Manufacturing Trade Action Coalition, SEAMS, and UNITE HERE! (Requestors) asking the Committee to reapply the limit on imports from China of brassieres and other body supporting garments in accordance with the textile and apparel safeguard provision of the Working Party on the Accession of China to the World Trade Organization (the Accession Agreement). On December 24, 2003 the Committee established an Accession Agreement limit on imports from China of brassieres and other body supporting garments, which will expire on December 23, 2004. The Committee hereby solicits public comments on this request.
