

DEPARTMENT OF THE INTERIOR**National Park Service****Draft Environmental Impact Statement/
General Management Plan, Minidoka
Internment National Monument,
Jerome County, ID; Notice of
Extension of Public Scoping Period**

SUMMARY: In accord with § 102(c) of the National Environmental Policy Act of 1969 (42 U.S.C. 4321, *et seq.*), the National Park Service is undertaking a conservation planning and environmental impact analysis process for the first General Management Plan (GMP) for the Minidoka Internment National Monument, Idaho. An Environmental Impact Statement will be prepared concurrently with the GMP. The GMP is intended to set forth the basic management philosophy for this new unit of the National Park System and provide strategies for addressing issues and achieving identified management objectives for that unit, thus serving as a "blueprint" to guide management of natural and cultural resources and visitor use during the next 15–20 years. The notice of intent initiating scoping for this effort was published in the **Federal Register** on April 24, 2002, with the original public scoping period set to conclude on September 30, 2002. In an effort to comprehensively involve all interested parties and to solicit additional concerns and information about management issues that should be addressed, the scoping period has been extended through December 2002.

SUPPLEMENTARY INFORMATION: All individuals, organizations, agencies, American Indian tribes, and other interested parties with information pertinent to preparation of the GMP are encouraged to contact the Superintendent, Minidoka Internment National Monument. To be considered, comments must be postmarked or transmitted no later than December 31, 2002.

Comments: As part of this comprehensive public involvement effort, the National Park Service anticipates holding public scoping meetings in Idaho, Oregon, and Washington, during the month of November 2002. Details of these meetings will be announced widely in local and regional news media, via direct park mailings, and posted on the park's Web site (see below). All responses should be submitted directly to the Superintendent, Minidoka Internment National Monument, P.O. Box 570, 221 North State Street, Hagerman, Idaho 83332. Emailed

comments should be sent to MIIN_GMP@nps.gov. Current information is available at (208) 837–4793 or www.nps.gov/miin/.

All comments received will become part of the public record. If individuals submitting comments request that their name or/and address be withheld from public disclosure, it will be honored to the extent allowable by law. Such requests must be stated prominently in the beginning of the comments. There also may be circumstances wherein the NPS will withhold a respondent's identity as allowable by law. As always, NPS will make available to public inspection all submissions from organizations or businesses and from persons identifying themselves as representatives or officials of organizations and businesses; and, anonymous comments may not be considered.

Dated: September 26, 2002.

Patricia L. Neubacher,

Acting Regional Director, Pacific West Region.

DEPARTMENT OF THE INTERIOR**Bureau of Reclamation****Information Collection Activities Under
OMB Review**

AGENCY: Bureau of Reclamation, Interior.

ACTION: Notice of data collection submission.

SUMMARY: In compliance with the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*), this notice announces that the Information Collection Request (ICR) abstracted below has been forwarded to the Office of Management and Budget (OMB) for review and comment. The ICR describes the nature of the information collection and its expected cost and burden.

DATES: Comments must be submitted on or before December 19, 2002. OMB has up to 60 days to approve or disapprove this information collection, but may respond after 30 days; therefore, public comment should be submitted to OMB within 30 days in order to assure maximum consideration.

ADDRESSES: Comments on this information collection should be submitted to the Office of Information and Regulatory Affairs, Office of Management and Budget, Attention: Desk Officer for the Department of the Interior, 725 17th Street, NW., Washington DC 20503. A copy of your comments should also be directed to the

Bureau of Reclamation, Attention Mr. Jeffrey Addiego, Boulder Canyon Operations Office, PO Box 61470, Boulder City, NV 89006–1470.

FOR FURTHER INFORMATION CONTACT: For further information or a copy of the proposed collection of information, contact Mr. Jeffrey Addiego, (702) 293–8525, or e-mail at JAddiego@lc.usbr.gov.

SUPPLEMENTARY INFORMATION: Comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of Reclamation, including whether the information shall have practical use; (b) the accuracy of Reclamation's estimated burden of the proposed collection of information; (c) ways to enhance the quality, use, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on those who are to respond, including through the use of automated collection techniques or other forms of information technology.

Title: Lower Colorado River Well Inventory.

OMB No.: Extension of 1006–0014.

Description of respondents: All diversions of mainstream Colorado River water along the lower Colorado River must be accounted for and, for non-Indian diverters, in accordance with a water use contract with the Secretary of the Interior. Each diverter (including well pumpers) must be identified and their diversion locations and water use determined. This requires an inventory of wells along the lower Colorado River and the gathering of specific information concerning each well.

Frequency: These data will be collected only once for each well owner or operator as long as changes in water use, or other changes that would impact contractual or administrative requirements, are not made.

Estimated completion time: An average of 30 minutes is required for Reclamation to interview individual well owners or operators. Reclamation will use the information collected during these interviews to complete the information collection form.

Annual responses: 1,000.

Annual burden hours: 500 hours.

An Agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. Reclamation will display a valid OMB control number on the forms.

A Federal Register notice with a 60-day comment period soliciting comments on this collection of
