and to Departmental Clearance Office, USDA, OCIO, Mail Stop 7602, Washington, DC 20250–7602. Copies of the submission(s) may be obtained by calling (202) 720–8958.

An agency may not conduct or sponsor a collection of information unless the collection of information displays a currently valid OMB control number and the agency informs potential persons who are to respond to the collection of information that such persons are not required to respond to the collection of information unless it displays a currently valid OMB control number.

Animal Plant and Health Inspection Service

Title: 7 CFR 340; Introduction of Organisms and Products Altered or Produced Through Genetic Engineering. *OMB Control Number:* 0579–0085.

Summary of Collection: Under the Plant Protection Act (PPA, 7 U.S.C. 7703 *et seq.*) the Secretary of Agriculture is authorized to prohibit or restrict the importation, entry, or movement of interstate commerce of any plant, plant product, biological control organism, noxious weed, article, or means of conveyance. If the Secretary determines that the prohibition or restriction is necessary to prevent the introduction or the dissemination of a plant pest into the United States. The Animal and Plant Health Inspection Service (APHIS) is charged with preventing the introduction of plant pest into the United States or their dissemination within the United States. The statutory requirements for the information collection activity are found in the PPA. The regulations in 7 CFR part 340 implement the provisions of the PPA by providing the information necessary to establish conditions for proposed introductions of certain genetically engineered organisms and products which present a risk of plant pest introduction. APHIS will collect information using several APHIS forms.

Need and Use of the Information: APHIS will collect the information through a notification procedure or a permit requirement to ensure that certain genetically engineered organisms, when imported, moved interstate, or released into the environment, will not present a risk of plant pest introduction. The information collected through the petition process is used to determine whether a genetically
