

Estimated Time per Response: 2 to 20 hours.

Frequency of Response: One-time and occasional reporting requirements; annual recordkeeping requirements.

Obligation to Respond: Required to obtain or retain benefits. Statutory authority for this information collection is contained in 47 U.S.C. 151–154 and 254.

Total Annual Burden: 1,834 hours.

Total Annual Cost: No cost(s).

Privacy Act Impact Assessment: No impact(s).

Nature and Extent of Confidentiality: Information collected in FCC Form 5620 will be confidential. Information reported in the November interim progress report and the build-out milestone certifications will be made publicly available.

Needs and Uses: On January 31, 2014, the Commission released the *Tech Transitions* et al., GN Docket No. 13–5 et al., 29 FCC Rcd 1433 (2014) (*Tech Transitions Order*), that adopted targeted experiments to explore the impact of technology transitions on rural Americans, including those living on Tribal lands. On July 14, 2014, the Commission released *Connect America Fund* et al., WC Docket No. 10–90 et al., Report and Order and Further Notice of Proposed Rulemaking, FCC 14–98 (rel. July 14, 2014) (*Rural Broadband Experiments Order*), which established certain parameters and requirements for the rural broadband experiments adopted by the Commission in the *Tech Transitions Order*.

This information collection addresses requirements to carry out the rural broadband experiments the Commission adopted in the *Tech Transitions Order* and the *Rural Broadband Experiments Order*. The Commission has received OMB approval for most of the information collections required by the orders. At a later date, the Commission plans to submit additional revisions to a separate information collection for OMB's review to address other reporting requirements adopted in the *Rural Broadband Experiments Order*. For this revision, subject to OMB approval, the Commission proposes to incorporate the November interim progress report, build-out milestone certifications, and recordkeeping requirements that the Commission adopted in the *Rural Broadband Experiments Order*. If approved, recipients of the rural broadband experiments will be required to submit a one-time report on November 1st after they begin receiving support. This report must describe the status of the recipient's experiment as of September 30th immediately preceding the report (*i.e.*, whether vendors have

been hired, permits have been obtained, and construction has begun), and include evidence demonstrating which locations if any the recipient has built out to in its project areas and evidence demonstrating that the recipient is meeting the public service obligations for the relevant experiment category, including a certification that demonstrates the service the recipient offers complies with the Commission's latency requirements. Rural broadband experiment recipients will also be required to certify that they have met the build-out milestones adopted in the *Rural Broadband Experiments Order*. These certifications will be due for all recipients by the end of the third year and fifth year of support. Recipients that have chosen to receive 30 percent of their support upfront will also be required to submit a build-out milestone certification within 15 months of their first disbursement. Recipients that are determined to not be in compliance with the terms and conditions of the rural broadband experiments during their support term will also be required to submit a certification to demonstrate that they have come into compliance. All of these certifications must be accompanied by the same types of evidence required for the November interim progress report. This report and certifications will enable the Commission to monitor the progress of the rural broadband experiments and ensure that the support is being used for its intended purposes. Finally, rural broadband experiment recipients will be subject to a 10-year record retention requirement and must make those documents and records available to the Commission, any of its Bureaus or Offices, the Universal Service Administrative Company, and their respective auditors to aid these entities in overseeing the recipients' compliance with the terms and conditions of rural broadband experiment support. The Commission also proposes to eliminate FCC Form 5610 that is a part of this information collection. The deadline to file FCC Form 5610 with the Commission was November 7, 2014. Because the Commission does not anticipate holding another round of bidding, no additional entities will be required to file FCC Form 5610. There are no proposed changes to the currently approved FCC Form 5620 which is also a part of this information collection. However, the Commission proposes to increase the number of respondents involved in the post-selection review because more winning bidders were provisionally selected than the Commission anticipated.

Total Annual Burden: 20 hours.

Total Annual Cost: No cost.

Nature and Extent of Confidentiality: Although the Commission does not believe that any confidential information will need to be disclosed in order to comply with the information collection requirements, applicants are free to request that materials or information submitted to the Commission be withheld from public inspection. (See 47 CFR 0.459 of the Commission's Rules).

Needs and Uses: In 1997, the Commission imposed political broadcasting requirements on Satellite Digital Audio Broadcasting Service ("SDARS") licensees. See Establishment of Rules and Policies for the Digital Audio Radio Satellite Service in the 2310-2360 MHz Frequency Band, 12 FCC Rcd 5754, 5792, para. 92 (1997) ("1997 SDARS Order"), FCC 97-70. The Commission stated that SDARS licensees should comply with the same substantive political debate provisions as broadcasters: the federal candidate access provision (47 U.S.C. Section 312(a)(7)) and the equal opportunities provision (47 U.S.C. Section 315). The 1997 SDARS Order imposes the following requirements on SDARS licensees:

Lowest unit charge: Similar to broadcasters, SDARS licensees must disclose any practices offered to commercial advertisers that enhance the value of advertising spots and different classes of time. SDARS licensees must

also calculate the lowest unit charge and are required to review their advertising records throughout the election period to determine whether compliance with this rule section requires that candidates receive rebates or credits. See 47 CFR Section 73.1942.

Political file: Similar to broadcasters, SDARS licensees must also keep and permit public inspection of a complete record (political file) of all requests for SDARS origination time made by or on behalf of candidates for public office, together with an appropriate notation showing the disposition made by the system of such requests, and the charges made, if any, if the request is granted. The disposition includes the schedule of time purchased, when the spots actually aired, the rates charged, and the classes of time purchased. Also, when free time is provided for use by or on behalf of candidates, a record of the free time provided is to be placed in the political file as soon as possible and maintained for a period of two years. See 47 CFR 73.1943.

Total Annual Burden: 595,518 hours.

Total Annual Cost: No cost.

Nature and Extent of Confidentiality: There is no need for confidentiality with this collection of information.

Privacy Impact Assessment: No impact(s).

Needs and Uses: 47 CFR Section 73.2080 provides that equal opportunity in employment shall be afforded by all broadcast stations to all qualified persons and no person shall be discriminated against in employment by such stations because of race, color,

religion, national origin or sex. Section 73.2080 requires that each broadcast station employment unit with 5 or more full-time employees shall establish, maintain and carry out a program to assure equal opportunity in every aspect of a broadcast station's policy and practice. These same requirements also apply to Satellite Digital Audio Radio Service ("SDARS") licensees.

Revised Information Collection Requirement:

In 1997, the Commission determined that SDARS licensees must comply with the Commission's EEO requirements. See Establishment of Rules and Policies for the Digital Audio Radio Satellite Service in the 2310-2360 MHz Frequency Band, 12 FCC Rcd 5754, 5791, ¶ 91 (1997) ("1997 SDARS Order"), FCC 97-70. In 2008, the Commission clarified that SDARS licensees must comply with the Commission's EEO broadcast rules and policies, including the same recruitment, outreach, public file, Web site posting, record-keeping, reporting, and self-assessment obligations required of broadcast licensees, consistent with 47 CFR 73.2080, as well as any other Commission EEO policies. See Applications for Consent to the Transfer of Control of Licenses, SM Satellite Radio Holdings Inc., Transferor, to Sirius Satellite Radio Inc., Transferee, 23 FCC Rcd 12348, 12426, ¶ 174, and note 551 (2008) ("XM-Sirius Merger Order").

The Commission is making this submission to the Office of Management and Budget for approval to add SDARS licensees to this information collection.

Respondents complying with the information collection requirements may request that the information they submit be withheld from disclosure. If confidentiality is requested, such requests will be processed in accordance with the Commission's rules, 47 CFR 0.459.

Privacy Impact Assessment: Should respondents submit any PII as part of the information collection requirements, the FCC has an existing system of records, FCC/MB-1, "Ownership of Commercial Broadcast Stations," that may partially cover this PII. In addition, the Commission has prepared a second system of records notice, FCC/MB-2, "Broadcast Station Public Inspection Files," that will cover the PII contained in the broadcast station public inspection files to be located on the Commission's Web site. The Commission is also drafting a PIA for the records covered by this SORN.

Needs and Uses: Satellite Radio (also referred to as "Satellite Digital Audio Radio Services" or "SDARS") licensees are required to comply with the Commission's EEO broadcast rules and policies, including public file obligations and periodic submissions to the Commission. See Applications for Consent to the Transfer of Control of Licenses, XM Satellite Radio Holdings Inc., Transferor, to Sirius Satellite Radio Inc., Transferee, 23 FCC Rcd 12348, 12426, ¶ 174, and note 551 (2008) ("XM-Sirius Merger Order"). Nature and Extent of Confidentiality: There is no need for confidentiality with this collection of information.

Privacy Impact Assessment: No impact(s).

Needs and Uses: The Broadcast Equal Employment Opportunity (EEO) Program Report, FCC Form 396, is a device that is used to evaluate a broadcaster's EEO program to ensure that satisfactory efforts are being made to comply with FCC's EEO requirements. FCC Form 396 is required to be filed at the time of renewal of license by all AM, FM, TV, Low Power TV and International stations. Licensees in the Satellite Digital Audio Radio Service ("SDARS") also must file FCC Form 396.

The recordkeeping requirements for FCC Form 396 are covered under OMB control number 3060–0214.

Revised Collection Requirement:

In 1997, the Commission determined that SDARS licensees must comply with the Commission's EEO requirements. See Establishment of Rules and Policies for the Digital Audio Radio Satellite Service in the 2310–2360 MHz Frequency Band, 12 FCC Rcd 5754, 5791, ¶ 91 (1997) ("1997 SDARS Order"), FCC 97–70. Total Annual Burden: 591 hours.

Total Annual Cost: No cost.

Nature and Extent of Confidentiality: There is no need for confidentiality with this collection of information.

Privacy Impact Assessment: No impact(s).

Needs and Uses: The Broadcast Mid-Term Report (FCC Form 397) is required to be filed by each broadcast television station that is part of an employment unit with five or more full-time employees and each broadcast radio station that is part of an employment unit with more than ten full-time employees. It is a data collection device used to assess broadcast compliance with EEO outreach requirements in the middle of license terms that are eight years in duration. FCC Form 397 must also be filed by Satellite Digital Audio Radio Services (SDARS) licensees to assess compliance with EEO outreach requirements.

Revised Information Collection Requirements Which Require Approval and Review by the Office of Management and Budget (OMB):

Satellite Radio (also referred to as "Satellite Digital Audio Radio Services" or "SDARS") licensees are required to comply with the Commission's EEO broadcast rules and policies. They must engage in the same recruitment, outreach, public file, Web site posting, record-keeping, reporting, and self-assessment obligations required of broadcast licensees, consistent with 47 CFR 73.2080, and are subject to the same EEO policies. See Applications for Consent to the Transfer of Control of Licenses, XM Satellite Radio Holdings Inc., Transferor, to Sirius Satellite Radio Inc., Transferee, 23 FCC Rcd 12348, 12426, ¶ 174, and note 551 (2008) ("XM-Sirius Merger Order"). (See 47 CFR 0.459 of the Commission's Rules).

Privacy Impact Assessment: No impact(s).

Needs and Uses: The Commission vacated an Order on Reconsideration, In the Matter of Implementation Of Section 25 Of The Cable Television Consumer Protection And Competition Act Of 1992, Direct Broadcast Satellite Public Interest Obligations, MM No. Docket 93–25 FCC 03–78, adopted April 9, 2003 and adopted in its place, in the same proceeding, a Second Order on Reconsideration of the First Report and Order, Sua Sponte Order on Reconsideration (“Second Order”) and accompanying rules FCC 04–44, released March 25, 2004. The Second Order differs from the Order on Reconsideration with respect to two issues: (1) The political broadcasting requirements, and (2) the guidelines concerning commercialization of children's programming.

47 CFR 25.701(c)(1)(i)(C) states DBS providers may establish and define their own reasonable classes of immediately preemptible time so long as the differences between such classes are based on one or more demonstrable

benefits associated with each class and are not based solely upon price or identity of the advertiser. Such demonstrable benefits include, but are not limited to, varying levels of preemption protection, scheduling flexibility, or associated privileges, such as guaranteed time sensitive make goods. DBS providers may not use class distinctions to defeat the purpose of the lowest unit charge requirement. All classes must be fully disclosed and made available to candidates.

47 CFR 25.701(c)(1)(i)(D) states DBS providers may establish reasonable classes of preemptible with notice time so long as they clearly define all such classes, fully disclose them and make them available to candidates.

47 CFR 25.701(c)(1)(i)(E) states DBS providers may treat non preemptible and fixed position as distinct classes of time provided that they articulate clearly the differences between such classes, fully disclose them, and make them available to candidates.

47 CFR 25.701(c)(1)(i)(I) states DBS providers shall review their advertising records periodically throughout the election period to determine whether compliance with this section requires that candidates receive rebates or credits. Where necessary, DBS providers shall issue such rebates or credits promptly.

47 CFR 25.701(c)(1)(i)(M) states DBS providers must disclose and make available to candidates any make good policies provided to commercial advertisers. If a DBS provider places a make good for any commercial advertiser or other candidate in a more valuable program or daypart, the value of such make good must be included in the calculation of the lowest unit charge for that program or daypart.

47 CFR 25.701(c)(1)(ii) states at any time other than the respective periods set forth in paragraph (c)(1)(i) of this section, DBS providers may charge legally qualified candidates for public office no more than the charges made for comparable use of the facility by commercial advertisers. The rates, if any, charged all such candidates for the same office shall be uniform and shall not be rebated by any means, direct or indirect. A candidate shall be charged no more than the rate the DBS provider would charge for comparable commercial advertising. All discount privileges otherwise offered by a DBS provider to commercial advertisers must be disclosed and made available upon equal terms to all candidates for public office.

47 CFR 25.701(d) states each DBS provider shall keep and permit public inspection of a complete and orderly

political file and shall prominently disclose the physical location of the file, and the telephonic and electronic means to access the file.

(1) The political file shall contain, at a minimum:

(i) A record of all requests for DBS origination time, the disposition of those requests, and the charges made, if any, if the request is granted. The “disposition” includes the schedule of time purchased, when spots actually aired, the rates charged, and the classes of time purchased; and

(ii) A record of the free time provided if free time is provided for use by or on behalf of candidates.

(2) DBS providers shall place all records required by this section in a file available to the public as soon as possible and shall be retained for a period of four years until December 31, 2006, and thereafter for a period of two years.

47 CFR 25.701(e)(3) requires DBS providers airing children's programming must maintain records sufficient to verify compliance with this rule and make such records available to the public. Such records must be maintained for a period sufficient to cover the limitations period specified in 47 U.S.C. 503(b)(6)(B).

47 CFR 25.701(f)(6) states that each DBS provider shall keep and permit public inspection of a complete and orderly record of:

(A) Quarterly measurements of channel capacity and yearly average calculations on which it bases its four percent reservation, as well as its response to any capacity changes;

(B) A record of entities to whom noncommercial capacity is being provided, the amount of capacity being provided to each entity, the conditions under which it is being provided and the rates, if any, being paid by the entity;

(C) A record of entities that have requested capacity, disposition of those requests and reasons for the disposition.

(ii) All records required by this paragraph shall be placed in a file available to the public as soon as possible and shall be retained for a period of two years.

The statutory authority which covers this information collection is contained in 47 U.S.C. 335 of the Communications Act of 1934, as amended.

Revised Information Collection Requirements:

The Commission is reinstating this collection into the Office of Management and Budget's (OMB's) inventory because after further evaluation the Commission has determined that this collection is still

needed by the Commission because DBS providers make up the majority of their universe of respondents. Since this is the case, OMB approval is still need for this collection.

SUPPLEMENTARY INFORMATION: Proposal to renew the following currently-approved collections of information:

1. *Title:* Public Disclosure by Banks.

OMB Number: 3064-0090.

Affected Public: Insured state nonmember banks.

Frequency of Response: Annually.

Estimated Number of Respondents: 4,084.

Estimated Time per Response: 0.5

Total Annual Burden: 2,042 hours.

General Description: 12 CFR part 350 requires a bank to notify the general public, and in some instances shareholders, that financial disclosure statements are available by request. Required disclosures consist of financial reports for the current and preceding year, which can be photocopied directly from the year-end call reports. The FDIC may also require, on a case-by-case basis, that descriptions of enforcement actions be included in disclosure statements. This regulation allows, but does not require, the inclusion of management discussion and analysis.

2. *Title:* Activities and Investments of Insured State Banks.

OMB Number: 3064-0111.

Form Numbers: None.

Frequency of Response: On occasion.

Affected Public: Insured state nonmember banks.

Estimated Number of Respondents: 110.

Estimated Time per Response: 8 hours.

Total Annual Burden: 880 hours.

General Description: Section 24 of the Federal Deposit Insurance Act (FDI Act), 12 U.S.C. 1831a, limits investments and other activities in which state banks may engage as principal to those permissible for national banks and those approved by the FDIC under procedures set forth in Part 362 of the FDIC's Rules and Regulations, 12 CFR part 362. With certain exceptions, section 24 of the FDI Act limits the direct equity investments of state chartered banks to equity investments that are permissible for national banks. In addition, the statute prohibits an insured state bank from directly engaging, as a principal, in any activity that is not permissible for a national bank, or indirectly through a subsidiary in an activity that is not permissible for a subsidiary of a national bank, unless such bank meets its minimum capital requirements and the FDIC determines that the activity does not pose significant risk to the Deposit Insurance Fund. The FDIC can make such a determination for

exception by regulation or by order. The FDIC's implementing regulation for section 24 is 12 CFR part 362. This regulation details the activities that insured state nonmember banks or their subsidiaries may engage in, under certain criteria and conditions, and identifies the information that banks must furnish to the FDIC in order to obtain the FDIC's approval or nonobjection.

Total Annual Burden: 162,456 hours.

General Description: The elements of this collection are required under section 504 of the Gramm-Leach-Bliley Act, Public Law 106-102. The collection mandates notice requirements and restrictions on a financial institution's ability to disclose nonpublic personal information about consumers to nonaffiliated third parties.
