

nonradiological plant effluents and has no other environmental impact. Therefore, there are no significant nonradiological environmental impacts associated with the proposed action.

Accordingly, the NRC concludes that there are no significant environmental impacts associated with the proposed action.

#### *Environmental Impacts of the Alternatives to the Proposed Action*

As an alternative to the proposed action, the staff considered denial of the proposed action (*i.e.*, the "no-action" alternative). Denial of the application would result in no change in current environmental impacts. The environmental impacts of the proposed action and the alternative action are similar.

#### *Alternative Use of Resources*

The action does not involve the use of any different resource than those previously considered in previous reviews for the Yankee Nuclear Power Station. The plant was licensed prior to the requirement for issuance of a Final Environmental Statement.

#### *Agencies and Persons Consulted*

On August 21, 2001, the staff consulted with the Massachusetts State official, Jim Muckerheide of the Massachusetts Emergency Management Agency, regarding the environmental impact of the proposed action. The State official had no comments.

#### **Finding of No Significant Impact**

On the basis of the environmental assessment, the NRC concludes that the proposed action will not have a significant effect on the quality of the human environment. Accordingly, the NRC has determined not to prepare an environmental impact statement for the proposed action.

Further details with respect to the proposed action may be found in the licensee's letter dated September 28, 2000, as supplemented by letters dated October 12, 2000, April 18, 2001, May 29, 2001, and June 28, 2001. Documents may be examined, and/or copied for a fee, at the NRC's Public Document Room (PDR), located at One White Flint North, 11555 Rockville Pike (first floor), Rockville, Maryland. Publicly available records will be accessible electronically from the ADAMS Public Library component on the NRC Web site, <http://www.nrc.gov> (the Public Electronic Reading Room). ## **POSTAL RATE COMMISSION**

### **Postal Data Systems Briefing**

**AGENCY:** Postal Rate Commission.

**ACTION:** Notice of official briefing.

**SUMMARY:** In a letter of August 7, 2001, the Postal Service notified the Commission of planned changes in the Revenue, Pieces and Weight (RPW) reporting system. The new approach, referred to as Characteristics RPW (CRPW), will rely on mailpiece characteristics rather than data collectors' knowledge for assigning the mailpiece to a rate category. This change, which is to be implemented beginning in Postal Quarter 1, FY 2002, appears designed to rectify nonsampling errors associated with the current system. The Service will provide a technical briefing on the change on Friday, September 21, 2001, at 11 a.m., in the Commission's hearing room, 1333 H, Street NW., Washington, DC. This briefing is open to the public.

**DATES:** Friday, September 21, 2001.
