

Date and time	Location
Monday, June 24, 2024, 5:00–7:00 p.m.	Holiday Inn Express and Suites, 351 Vineyards Crossing, Lexington, NC 27295, (366) 224–6730.
Tuesday, June 25, 2024, 5:00–7:00 p.m.	Olde Dominion Agricultural Complex, 19783 US–29, Chatham, VA 24531, (434) 432–8026.

The primary goal of these scoping sessions is to have you identify the specific environmental issues and concerns that should be considered in the environmental document. Individual oral comments will be taken on a one-on-one basis with a court reporter. This format is designed to receive the maximum amount of oral comments in a convenient way during the timeframe allotted.

Each scoping session is scheduled from 5:00 p.m. to 7:00 p.m. Eastern Daylight Time. You may arrive at any time after 5:00 p.m. There will not be a formal presentation by Commission staff when the session opens. If you wish to speak, the Commission staff will hand out numbers in the order of your arrival. Comments will be taken until 7:00 p.m. However, if no additional numbers have been handed out and all individuals who wish to provide comments have had an opportunity to do so, staff may conclude the session at 6:30 p.m. Please see appendix 1 for additional information on the session format and conduct.¹

Your scoping comments will be recorded by a court reporter (with FERC staff or representative present) and become part of the public record for this proceeding. Transcripts will be publicly available on FERC's eLibrary system (see the last page of this notice for instructions on using eLibrary). If a significant number of people are interested in providing oral comments in the one-on-one settings, a time limit of 5 minutes may be implemented for each commentor.

It is important to note that the Commission provides equal consideration to all comments received, whether filed in written form or provided orally at a scoping session. Although there will not be a formal presentation, Commission staff will be available throughout the scoping session

to answer your questions about the environmental review process. Representatives from Transco will also be present to answer project-specific questions.

As a reminder, in lieu of attending the public scoping sessions, the Commission encourages electronic filing of comments and has staff available to assist you at (866) 208–3676 or FercOnlineSupport@ferc.gov. Please carefully follow these instructions so that your comments are properly recorded.

(1) You can file your comments electronically using the eComment feature on the Commission's website (www.ferc.gov) under the link to FERC Online. This is an easy method for submitting brief, text-only comments on a project;

(2) You can file your comments electronically by using the eFiling feature on the Commission's website (www.ferc.gov) under the link to FERC Online. With eFiling, you can provide comments in a variety of formats by attaching them as a file with your submission. New eFiling users must first create an account by clicking on "eRegister." If you are filing a comment on a particular project, please select "Comment on a Filing" as the filing type; and

(3) You can file a paper copy of your comments by mailing them to the Commission. Be sure to reference the project docket number (PF24–2–000) on your letter. Submissions sent via the U.S. Postal Service must be addressed to: Debbie-Anne A. Reese, Acting Secretary, Federal Energy Regulatory Commission, 888 First Street NE, Room 1A, Washington, DC 20426. Submissions sent via any other carrier must be addressed to: Debbie-Anne A. Reese, Acting Secretary, Federal Energy Regulatory Commission, 12225 Wilkins Avenue, Rockville, Maryland 20852.

The Commission's Office of Public Participation (OPP) supports meaningful public engagement and participation in Commission proceedings. OPP can help members of the public, including landowners, environmental justice communities, Tribal members and others, access publicly available information and navigate Commission processes. For public inquiries and assistance with making filings such as interventions, comments, or requests for rehearing, the public is encouraged to contact OPP at (202) 502–6595 or OPP@ferc.gov.

This notice is being sent to the Commission's current environmental mailing list for the Project. Public sessions or site visits will be posted on the Commission's calendar located at

<https://www.ferc.gov/news-events/events> along with other related information. Additional information about the project is available from the Commission's Office of External Affairs, at (866) 208–FERC, or on the FERC website (www.ferc.gov) using the eLibrary link. Click on the eLibrary link, click on "General Search" and enter the docket number in the "Docket Number" field (*i.e.*, PF24–2–000). Be sure you have selected an appropriate date range. For assistance, please contact FERC Online Support at FercOnlineSupport@ferc.gov or toll free at (866) 208–3676, or for TTY, contact (202) 502–8659. The eLibrary link also provides access to the texts of all formal documents issued by the Commission, such as orders, notices, and rulemakings.

Dated: June 6, 2024.

Debbie-Anne A. Reese,
Acting Secretary.

City of Seattle; Addendum to Notice of Intent To File License Application, Filing of Pre-Application Document (PAD), Commencement of Pre-Filing Process, and Scoping; Request for Comments on the PAD and Scoping Document, and Identification of Issues and Associated Study Requests

On May 31, 2024, we issued notice that, in part, Commission staff will hold two scoping meetings for the South Fork Tolt River Hydroelectric Project No. 2959 to receive input on the scope of the environmental document for project relicensing. An evening scoping meeting will be held at 6:00 p.m. Pacific Daylight Time (PDT) on June 25, 2024, at Cherry Creek Falls Event Center, 16533 Kelly Road Northeast, Duvall, Washington 98019. A daytime scoping meeting will be held at 9:00 a.m. PDT on June 26, 2024, at the same location. The evening meeting is primarily for receiving input from the public, while the daytime meeting will focus on resource agency, Indian tribes, and non-governmental organization concerns. Spanish-English translation services will be provided at the scoping meetings.

¹ The appendices referenced in this notice will not appear in the **Federal Register**. Copies of the appendices were sent to all those receiving this notice in the mail and are available at www.ferc.gov using the link called "eLibrary." For instructions on connecting to eLibrary, refer to the last page of this notice. For assistance, contact FERC at FERCOnlineSupport@ferc.gov or call toll free, (866) 208–3676 or TTY (202) 502–8659.

Dated: June 6, 2024.

Debbie-Anne A. Reese,
Acting Secretary.

[Docket No. CP24–8–000]

Natural Gas Pipeline Company of America LLC; Notice of Availability of the Environmental Assessment for the Proposed Texas-Louisiana Expansion Project

The staff of the Regulatory Commission (FERC or Commission) has prepared an environmental assessment (EA) for the Texas-Louisiana Expansion Project, proposed by Natural Gas Company of America LLC (Natural) in the above-referenced docket. Natural requests authorization for construction, installation, modification, operation, and maintenance of facilities at two existing compressor stations in Liberty County (Compressor Station 343) and Montgomery County (Compressor Station 302), Texas. Through installation of the proposed facilities, Natural would add an incremental 300,000 dekatherms per day (Dth/day) of firm gas capacity in Segment 25 of its eastbound Louisiana Line. When combined with the unsubscribed capacity Natural has reserved for the Texas-Louisiana Expansion Project, this would allow Natural to provide up to 467,000 Dth/day of firm transportation service to the Project shippers.

The EA assesses the potential environmental effects of the construction and operation of the Texas-Louisiana Expansion Project in accordance with the requirements of the National Environmental Policy Act of 1969 (NEPA). FERC staff concludes that approval of the proposed project would not constitute a major Federal action significantly affecting the quality of the human environment.

The proposed Texas-Louisiana Expansion Project includes the following facilities and activities:

*Modifications and Installations at
Compressor Station 302 in Montgomery
County, Texas:*

- Uprate the existing compressor controls to increase the horsepower (hp) of existing compressor Units 7 and 8 by 1,600 hp each, for a total of 3,200 hp;
- Re-wheel existing compressor Units 7, 8 and 9; and

- Install one new electric motor driven compressor unit with a rating of 18,340 hp.

*Modification at Compressor Station
343 in Liberty County, Texas:*

- Re-wheel existing electric motor driven compressor Units 9 and 10.

The Commission mailed a copy of the *Notice of Availability* of the EA to Federal, state, and local government representatives and agencies; elected officials; environmental and public interest groups; Native American tribes; potentially affected landowners and other interested individuals and groups; and newspapers and libraries in the project area. The EA is only available in electronic format. It may be viewed and downloaded from the FERC's website (www.ferc.gov), on the natural gas environmental documents page (<https://www.ferc.gov/industries-data/natural-gas/environment/environmental-documents>). In addition, the EA may be accessed by using the eLibrary link on the FERC's website. Click on the eLibrary link (<https://elibrary.ferc.gov/eLibrary/search>), select "General Search" and enter the docket number in the "Docket Number" field, excluding the last three digits (*i.e.*, CP24–8). Be sure you have selected an appropriate date range. For assistance, please contact FERC Online Support at FercOnlineSupport@ferc.gov or toll free at (866) 208–3676, or for TTY, contact (202) 502–8659.

The EA is not a decision document. It presents Commission staff's independent analysis of the environmental issues for the Commission to consider when addressing the merits of all issues in this proceeding. Any person wishing to comment on the EA may do so. Your comments should focus on the EA's disclosure and discussion of potential environmental effects, reasonable alternatives, and measures to avoid or lessen environmental impacts. The more specific your comments, the more useful they will be. To ensure that the Commission has the opportunity to consider your comments prior to making its decision on this project, it is important that we receive your comments in Washington, DC on or before 5:00 p.m. Eastern Time on July 8, 2024.

For your convenience, there are three methods you can use to file your comments to the Commission. The Commission encourages electronic filing of comments and has staff available to assist you at (866) 208–3676 or FercOnlineSupport@ferc.gov. Please carefully follow these instructions so that your comments are properly recorded.

(1) You can file your comments electronically using the eComment feature on the Commission's website (www.ferc.gov) under the link to FERC Online. This is an easy method for submitting brief, text-only comments on a project;

(2) You can also file your comments electronically using the eFiling feature on the Commission's website (www.ferc.gov) under the link to FERC Online. With eFiling, you can provide comments in a variety of formats by attaching them as a file with your submission. New eFiling users must first create an account by clicking on "eRegister." You must select the type of filing you are making. If you are filing a comment on a particular project, please select "Comment on a Filing"; or

(3) You can file a paper copy of your comments by mailing them to the Commission. Be sure to reference the project docket number (CP24–8–000) on your letter. Submissions sent via the U.S. Postal Service must be addressed to: Debbie-Anne A. Reese, Acting Secretary, Federal Energy Regulatory Commission, 888 First Street NE, Room 1A, Washington, DC 20426. Submissions sent via any other carrier must be addressed to: Debbie-Anne A. Reese, Acting Secretary, Federal Energy Regulatory Commission, 12225 Wilkins Avenue, Rockville, MD 20852.

Filing environmental comments will not give you intervenor status, but you do not need intervenor status to have your comments considered. Only intervenors have the right to seek rehearing or judicial review of the Commission's decision. At this point in this proceeding, the timeframe for filing timely intervention requests has expired. Any person seeking to become a party to the proceeding must file a motion to intervene out-of-time pursuant to Rule 214(b)(3) and (d) of the Commission's Rules of Practice and Procedures (18 Code of Federal Regulations 385.214(b)(3) and (d)) and show good cause why the time limitation should be waived. Motions to intervene are more fully described at <https://www.ferc.gov/how-intervene>.

Additional information about the project is available from the Commission's Office of External Affairs, at (866) 208–FERC, or on the FERC website (www.ferc.gov) using the eLibrary link. The eLibrary link also provides access to the texts of all formal documents issued by the Commission, such as orders, notices, and rulemakings.

The Commission's Office of Public Participation (OPP) supports meaningful public engagement and participation in Commission proceedings. OPP can help
