INTERNATIONAL BOUNDARY AND WATER COMMISSION, UNITED STATES AND MEXICO

United States Section; Notice of Availability of Final Environmental Impact Statement, River Management Alternatives for the Rio Grande Canalization Project, Sierra and Doña Ana Counties, NM and El Paso County, TX

AGENCY: United States Section,
International Boundary and Water
Commission, United States and Mexico.

ACTION: Notice of availability of Final
Environmental Impact Statement.

SUMMARY: Pursuant to section 102(2)(c) of the National Environmental Policy Act (NEPA) of 1969, as amended, the United States Section, International Boundary and Water Commission (USIBWC), in cooperation with the United States Bureau of Reclamation (USBR), has prepared a Final Environmental Impact Statement (FEIS) on River Management Alternatives for the Rio Grande Canalization Project (RGCP) located in Sierra and Doña Ana Counties, NM and El Paso County, TX. The FEIS analyzes effects of the No Action Alternative and three action alternatives on the future RGCP operation, maintenance, and implementation of environmental measures. No final action will be taken on this proposal during the 30 days following the filing of this FEIS, in

accordance with the Council on Environmental regulations, 40 CFR 1506.10(b)(2).

ADDRESSES: Copies of the FEIS are available for inspection and review at the following locations: Branigan Memorial Library, 200 East Picacho Avenue, Las Cruces, New Mexico; El Paso Public Library, 501 North Oregon Street, El Paso, Texas; New Mexico State University Library, Las Cruces, New Mexico; University Library, The University of Texas at El Paso, El Paso, Texas; and United States Section, International Boundary and Water Commission, 4171 North Mesa Street, El Paso, Texas. A copy of the FEIS will also be posted at the USIBWC site at <http://www.ibwc.state.gov> "IBWC News."

FOR FURTHER INFORMATION CONTACT: Mr. Douglas Echlin, Lead Environmental Protection Specialist, Environmental Management Division, USIBWC, 4171 North Mesa Street, C-100, El Paso, Texas 79902 or call 915/832-4741.

SUPPLEMENTARY INFORMATION: The USIBWC evaluated long-term river management alternatives for the RGCP, a narrow river corridor that extends 105.4 river miles along the Rio Grande, from below Percha Dam in Sierra County, New Mexico to American Dam in El Paso County, Texas. The RGCP is operated and maintained by the USIBWC and was constructed to facilitate water deliveries to the Rincon and Mesilla Valleys in New Mexico, El Paso Valley in Texas, and Juarez Valley in Mexico. The project also includes a levee system for flood control.

The USIBWC currently implements operation and maintenance procedures to enhance ecosystem functions within the RGCP; however, alterations to the river and floodway from events that pre-date RGCP construction continue to affect the river and floodway. Therefore, USIBWC recognizes the need to accomplish flood control, water delivery, and operations and maintenance activities in a manner that enhances and restores the riparian ecosystem, if possible.

River management alternatives were considered and developed over an extensive public consultation process that included input from the general public and stakeholders such as regulatory agencies, irrigation districts, farmers, and environmental organizations. The No Action Alternative and three potential action alternatives were selected for further evaluation. Levee rehabilitation, changes associated with grazing leases to improve erosion control, floodway management, and river restoration

including aquatic habitat diversification and riparian vegetation development are measures considered in the action alternatives. The Preferred Alternative is the Integrated USIBWC Land Management Alternative representing the best balance of flood control, water delivery and habitat enhancement.

The FEIS has been filed with the Environmental Protection Agency (EPA) in accordance with 40 CFR parts 1500–1508 and USIBWC procedures. No action will be taken on the proposed action before 30 days following publication of the notice of availability of the FEIS by EPA in the **Federal Register**. A Record of Decision will be issued on this proposal after the minimum 30 days following the filing of the FEIS by the EPA.

Dated: June 29, 2004.

NATIONAL ARCHIVES AND RECORDS ADMINISTRATION

Records Schedules; Availability and Request for Comments

AGENCY: National Archives and Records Administration (NARA).

ACTION: Notice of availability of proposed records schedules; request for comments.

SUMMARY: The National Archives and Records Administration (NARA) publishes notice at least once monthly of certain Federal agency requests for records disposition authority (records schedules). Once approved by NARA, records schedules provide mandatory instructions on what happens to records when no longer needed for current Government business. They authorize the preservation of records of continuing value in the National Archives of the United States and the destruction, after a specified period, of records lacking administrative, legal, research, or other value. Notice is published for records schedules in which agencies propose to destroy records not previously authorized for disposal or reduce the retention period of records already authorized for

disposal. NARA invites public comments on such records schedules, as required by 44 U.S.C. 3303a(a).

DATES: Requests for copies must be received in writing on or before August 20, 2004. Once the appraisal of the records is completed, NARA will send a copy of the schedule. NARA staff usually prepare appraisal memorandums that contain additional information concerning the records covered by a proposed schedule. These, too, may be requested and will be provided once the appraisal is completed. Requesters will be given 30 days to submit comments.

ADDRESSES: You may request a copy of any records schedule identified in this notice by contacting the Life Cycle Management Division (NWML) using one of the following means: Mail: NARA (NWML), 8601 Adelphi Road, College Park, MD 20740–6001. E-mail: records.mgt@nara.gov. FAX: 301–837–3698.

Requesters must cite the control number, which appears in parentheses after the name of the agency which submitted the schedule, and must provide a mailing address. Those who desire appraisal reports should so indicate in their request.

FOR FURTHER INFORMATION CONTACT: Paul M. Wester, Jr., Director, Life Cycle Management Division (NWML), National Archives and Records Administration, 8601 Adelphi Road, College Park, MD 20740–6001. Telephone: 301–837–3120. E-mail: records.mgt@nara.gov.

SUPPLEMENTARY INFORMATION: Each year Federal agencies create billions of records on paper, film, magnetic tape, and other media. To control this accumulation, agency records managers prepare schedules proposing retention periods for records and submit these schedules for NARA's approval, using the Standard Form (SF) 115, Request for Records Disposition Authority. These schedules provide for the timely transfer into the National Archives of historically valuable records and authorize the disposal of all other records after the agency no longer needs them to conduct its business. Some schedules are comprehensive and cover all the records of an agency or one of its major subdivisions. Most schedules, however, cover records of only one office or program or a few series of records. Many of these update previously approved schedules, and some include records proposed as permanent.

No Federal records are authorized for destruction without the approval of the Archivist of the United States. This
