

NATIONAL COUNCIL ON DISABILITY**Cultural Diversity Advisory Committee Meeting (Teleconference)**

Time and Date: 3 p.m. EST, December 3, 2002.

Place: National Council on Disability, 1331 F Street, NW., Suite 850, Washington, DC.

Agency: National Council on Disability (NCD).

Status: All parts of this meeting will be open to the public. Those interested in participating in this meeting should contact the appropriate staff member listed below. Due to limited resources, only a few telephone lines will be available for the conference call.

Agenda: Roll call, announcements, reports, new business, adjournment.

Contact Person for More Information: Gerrie Drake Hawkins, Ph.D., Program Specialist, National Council on Disability, 1331 F Street NW., Suite 850, Washington, DC 20004; 202-272-2004 (voice), 202-272-2074 (TTY), 202-272-2022 (fax), ghawkins@ncd.gov (e-mail).

Cultural Diversity Advisory Committee Mission: The purpose of NCD's Cultural Diversity Advisory Committee is to provide advice and recommendations to NCD on issues affecting people with disabilities from culturally diverse backgrounds. Specifically, the committee will help identify issues, expand outreach, infuse participation, and elevate the voices of underserved and unserved segments of this nation's population that will help NCD develop federal policy that will address the needs and advance the civil and human rights of people from diverse cultures.

Dated: September 5, 2002.

Ethel D. Briggs,

Executive Director.

BILLING CODE 7555-01-M

NUCLEAR REGULATORY COMMISSION

[Docket Nos. 50-266 and 50-301]

Nuclear Management Company, LLC; Notice of Consideration of Issuance of Amendment to Facility Operating License, Proposed No Significant Hazards Consideration Determination, and Opportunity for a Hearing

The U.S. Nuclear Regulatory Commission (the Commission) is considering issuance of amendments to Facility Operating License Nos. DPR-24 and DPR-27 issued to the Nuclear Management Company, LLC (the licensee), for operation of the Point Beach Nuclear Plant, Units 1 and 2, located in the Town of Two Creeks, Manitowoc County, Wisconsin.

The proposed amendments would increase the licensed reactor core power level by 1.4 percent from 1518.5 MWt to 1540 MWt.

Before issuance of the proposed license amendments, the Commission will have made findings required by the Atomic Energy Act of 1954, as amended (the Act), and the Commission's regulations.

The Commission has made a proposed determination that the amendment request involves no significant hazards consideration. Under the Commission's regulations in Title 10 of the Code of Federal Regulations (10 CFR), Section 50.92, this means that operation of the facility in accordance with the proposed amendment would not (1) involve a significant increase in the probability or consequences of an accident previously evaluated; or (2) create the possibility of a new or different kind of accident from any accident previously evaluated; or (3) involve a significant reduction in a margin of safety. As required by 10 CFR 50.91(a), the licensee has provided its analysis of the issue of no significant hazards consideration, which is presented below:

1. Operation of the Point Beach Nuclear Plant in accordance with the proposed amendments does not result in a significant increase in the probability or consequences of any accident previously evaluated.

The comprehensive analytical efforts performed to support the proposed change included a review of the FSAR [Final Safety Analysis Report] Chapter 14 Accident Analysis, the Nuclear Steam Supply System (NSSS) systems and components, Electrical Equipment, and Balance of Plant Systems. There are no changes as a result of the MUR power uprate to the design or operation of the plant that could affect system, component or accident mitigative functions. All systems and components will function as designed and the applicable performance requirements
