

significantly larger than the estimate contained in its most recent PRA submission for E.O. 13201. In that submission, the Department estimated it would receive 20 employee complaints. This number itself had been revised downwards because the Department never received any employee complaints pursuant to the now-revoked 29 CFR part 470 regulations. Because the applicability of the proposed rule and E.O. 13496 is greater in scope than the now-revoked part 470 and E.O. 13201 in terms of geography (the now-revoked part 470 regulations only applied to states without right-to-work laws, whereas the proposed rule applies nationwide), the Department has revised upwards its estimate of employee complaints under the proposed rule from 20 to 50. In addition, E.O. 13201 required the posting of a notice containing information of interest to only a few—employees who may have objected to paying union dues or fees for non-representational activities—while the information in the poster required by this regulation should be of interest to all employees.

The Department is seeking a three year approval for this information collection in order to implement the complaint procedures of proposed 29 CFR part 471.

II. *Review Focus*: The Department of Labor is particularly interested in comments that:

- * Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;

- * Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;

- * Enhance the quality, utility, and clarity of the information to be collected; and

- * Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submissions of responses.

III. *Current Actions*: The DOL seeks the approval of this information collection in order to ensure that employees of Federal contractors and subcontractors can properly submit complaints pursuant to proposed 29 CFR 471.
