SUPPLEMENTARY INFORMATION:

Title: Report of DBE Awards and Commitments.

OMB Control Number: 2105-0510.

Type of Request: Extension to a currently approved information collection.

Abstract: 49 CFR part 26 establishes requirements for the Department of Transportation (DOT) so as to comply with the mandate by statute including 1103(b) of the Transportation Equity Act for the 21st Century (TEA-21) of 1998 (Pub. L. 105-178) and 49 U.S.C. 47113, PL 105-178 retains the annual survey and listing from each state of small business concerns and the location of such concerns, and notification to the Secretary of Transportation of the percentage of such concerns controlled by women and by socially and economically disadvantaged individuals other than women. If these reporting requirements were not available, firms

controlled by minorities would not achieve the fullest possible participation in DOT programs, and the Department would not be able to identify its recipients and evaluate the extent to which financial assistance recipients have been awarded a reasonable amount.

In order to minimize the burden on DOT recipients the Department has limited its informational request and reporting frequency to that necessary to meet its program and administrative monitoring requirements. The informational request consists of 17 data items on one page and one attachment, to be completed on an annual, semi-annual or quarterly basis. It is the overall long range objective of DOT to permit all DOT recipients to report on a yearly basis depending upon their past experience in meeting their goals.

Respondents: DOT financially-assisted state and local transportation agencies.

Estimated Number of Respondents: 1,057.

Estimated Total Burden on Respondents: 1,456,683.

The information collection is available for inspection in the DOT Dockets Management System (DMS), 400 Seventh St., SW., Washington, DC 20590 (202) 366-9310.

Comments are Invited on: (a) Whether the collection of information is necessary for the proper performance of the functions of the Department, including whether the information will have practical utility; (b) the accuracy of the Department's estimate of the burden of the proposed information collection; (c) ways to enhance the quality, utility and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including the use of automated collection techniques or other forms of information technology.

All responses to this notice will be summarized and included in the request for OMB approval. All comments will also become a matter of public record.

Issued in Washington, DC on December 18, 2002.

Robert C. Ashby,

Deputy Assistant General Counsel for Regulation and Enforcement.
