Background

Section 515 of the Treasury and General Government Appropriations Act for Fiscal Year 2001 (Pub. L. 106-554) directs the Office of Management and Budget (OMB) to issue government-wide guidelines that “provide policy and procedural guidance to federal agencies for ensuring and maximizing the quality, objectivity, utility and integrity of information (including statistical information) disseminated by Federal agencies.” Pursuant to this directive, OMB issued guidelines on 22 February 2002 (67 FR 8452-8460) that direct each federal agency to (1) Issue its own guidelines ensuring and maximizing the quality, objectivity, utility, and integrity of information disseminated by the agency; (2) establish administrative mechanisms to allow affected persons to seek and obtain correction of information that does not comply with the OMB guidelines or the agency’s guidelines, and (3) report periodically to the director of OMB on the number and nature of complaints received by the agency regarding the accuracy of information disseminated by the agency and how such complaints were handled by the agency.

In compliance with the OMB directive, the Marine Mammal Commission is proposing agency guidelines intended to ensure and maximize the quality, objectivity, utility, and integrity of information that is disseminated by the agency.

The Marine Mammal Commission was established under the Marine Mammal Protection Act of 1972 to provide independent oversight of the marine mammal conservation policies and programs being carried out by federal agencies. The Commission is charged with developing, reviewing, and making recommendations on domestic and international actions and policies of all federal agencies with respect to marine mammal protection and conservation and with carrying out a research program. In carrying out its mission, the Commission develops and disseminates scientific and other information and reviews information provided by other federal agencies.
